- 10. Form of Proxy is enclosed.

Chairman's Review Report

I am pleased to present Chairman's Review report as required under section 192 of the Companies Act, 2017.

A Board of Directors forms the highest level of authority in the governance of a Company whose main purpose is to align the overall Company strategy to protect the rights of all the stakeholders and ensures that the strategies implemented throughout the Company are effective in utilizing the resources in most efficient way in order to achieve its overall objective.

For the financial year ended December 31, 2022, the Board's overall performance and effectiveness has been assessed as satisfactory, it is based on an evaluation of integral components, including vision, mission and values; engagement in strategic planning; formulation of policies; monitoring the organization's business activities; effective fiscal oversight; equitable treatment of all employees and efficiency in carrying out the Board's business. Improvement is an ongoing process leading to action plans.

The Board during the year ended December 31, 2022 played effective role in managing the affairs of the Company in the following manner;

- The Board has ensured that sound system of internal controls are in place and appropriateness and effectiveness of same is considered by internal auditors on regular basis;
- All the significant issues throughout the year were presented before the Board or its committees to strengthen and formalize the corporate decision making process and particularly all the related party transactions executed by the Company were approved by the Board on the recommendation of the Audit Committee;
- The meetings of Board have held frequently enough to adequately discharge their responsibilities. The Non-Executive and independent directors are equally involved in important decisions.

Based on aforementioned it can reasonably be argued that Board of CSIL has played active role in ensuring that corporate objectives are achieved in line with the expectation of shareholders and other important stakeholders.

Naim Anwar Chairman

Karachi: March 24, 2023

چيئرمين کی جائزہ رپورٹ

میں کمپینز ایکٹ 2017 کی دفعہ 192 کے تحت میں چیئر مین کی جائزہ رپورٹ پیش کرتے ہوئے اظہار مسرت کرتا ہوں۔

بورڈ آف ڈائر کیڑسی کمپنی کی حکمرانی میں اعلی سطح کے اختیارات تظلیل دیتا ہے جس کا بنیا دی مقصدتما م اسٹیک ہولڈرز کے حقوق کے تحفظ کے لئے کمپنی مجموعی حکمت عملی کوموافق بنانا ہے اور اس بات کویقینی بنانا ہے کہ کمپنی میں نافذ کر دہ حکمت عملی وسائل کواستعال کرنے اوراپنے مجموعی مقصد کو حاصل کرنے کے لئے سب سے موثر طریقہ ثابت ہو۔

مالیاتی سال مختمہ 31 دسمبر 2022 میں بورڈ کی مجموع کارکردگی اوراثر پزیری تسلی بخش رہی، اس کی بنیا د منفر داجزائے ترکیبی بشمول نصب کعین ، مشن اورا قدار، حکمت عملی سے بحر پور منصوبہ بندی، پالیسیوں کی تشکیل، ادارے کے مجموع کاروبار کی نگرانی، مالیاتی وسائل کا انتظام، موثر مالیاتی نگرانی، ملاز مین کی استعداد اوران کے ساتح کیساں سلوک کے ذریعے بورڈ کے کاموں کی تعمیل کرنا شامل ہے۔ بہتری ایک جاری عمل ہے جس سے منصوبوں پر عمل کرنے میں مددماتی ہے۔

سال کنتمہ 31 دسمبر 2022 کے دوران بورڈ نے کمپنی کے معاملات موثر انداز میں چلانے کے لئے اپنا کر دارمند رجہ ذیل طریقے سے ادا کیا:

- ہورڈ نے ادرونی گرفت کے نظام کو یقینی بنایا ہے اور اس کی افا دیت اور ثر پزیری پرادرونی آڈیٹر زبا قائدگی سے غور دخوص کرتے ہیں۔
- پورے سال تمام اہم معاملات کو بورڈیاس کی کمیٹیوں کے روبر وپیش کیا گیا جس سے ادارتی فیصلہ سازی کاعمل مضبوط اور باضابطہ ہوااورخاص طور پرملحقہ پارٹیوں کے تمام سودوں کی منظوری بورڈ نے آڈٹ کمیٹی کی سفارش پر دی۔
- بورڈ کے مناسب تعداد میں اجلاس ہوئے جس سے وہ اپنی دمہ داریوں سے احسن انداز میں عہدہ برآں ہوسکا۔ نان ایگزیکٹواور خود مختارڈائریکٹران کیساں طور پر اہم فیصلوں میں ملوث ہیں۔

مندرجہ بالاکو مدنظرر کھتے ہوئے اس بات کی تائید کی جاسکتی ہے کہ CSIL کے بورڈ نے ادارتی اہداف کویقینی بنانے کے لئے اپنا محرکا نہ کر دارا دا کیا جس سے تو تع حصص یافتگان اور دیگراہم مستفیدان کر ہے تھے۔

UNCONSOLIDATED Financial Statements for the Year Ended December 31, 2022

Directors' Report to the Members on Unconsolidated Financial Statements

The Directors of your Company are pleased to present the 66th Annual Report and the Audited Unconsolidated Financial Statements for the year ended December 31, 2022.

Business Performance Highlights

The overall conditions have not been good over last couple of years, firstly due to Covid and followed by the economic conditions prevailing. With such conditions, Crescent Star Insurance Limited (CSIL) has been successful in keeping the activities smooth and maintains its business and flow. Opposed to the conditions the Company has rather grown in terms of premium.

The Bank Enlistment and limits issue is still a major issue which the Insurance Industry continues to face, with no assistance from the relative quarters. Your Company however has maintained the strategy of underwriting classes of business where these issues cannot damage the operations, while prudent underwriting policies help the management to maintain profitability and cash flow requirements. The management continues its efforts to actively follow up with concerned quarters with the demand of meeting the law and giving fair trading conditions to all.

Unfortunately delay in court still has not improved and hence the merger of Crescent Star Foods (Private) Limited (CSF) with and into PICIC Insurance Limited (PIL) is still pending before Sind High Court. Lapse of considerable time have resulted in the hope of getting an early opportunity of being heard and the management expects the merger to go through within this current year, which may lead to the strategy of group activities.

Dost Steels Limited (DSL) is actively negotiating with potential Buyer and CSIL has also been approached to have a workable settlement. Accordingly some positive developments have taken place for which progress has been made for documentation and approval process. This may take a bit longer but the management feels the advance against issuance of shares is a safe investment as the asset value versus liability of DSL has further improved due to currency devaluation and the increase in the value of the assets. Steel is a sector which has bright prospects in Pakistan and will make progress towards more structuring of the sector with potential of certified and structured plants to overtake the production of steel made by unstructured manufacturing. Such prospects will help potential new buyer to invest the required capital in DSL which will give boost to returns that CSIL may achieve once the plant is in operations.

Financial Highlights

We are pleased to report that our insurance Company has delivered a reasonable financial performance in the current period. The Company has posted a net profit, which is a testament to the Company's commitment to maintaining its financial stability, while also delivering value to its customers.

The Company's net premium has increased in the current period by 24% (gross premium increased by 93%) in comparison to last year, driven by a combination of strong sales growth, effective strategies, and targeted product development. The growth in revenue is a reflection of the Company's ability to attract new customers and retain existing ones.

The Company's investment income has also contributed to its overall financial performance. The Company has made prudent investments, which have generated strong returns, and this has added to the Company's profits. Investment funds are paying dividend in the current period as investment income increased considerably by 92%.

Operational details of last three years are tabulated below. Further, key financial data for the last ten years is annexed.

Financial Position at a Glance	2022	2021	(Amount in Rs) 2020
Gross Premium	177,075,539	91,611,618	105,070,822
Net Premium	118,287,466	95,587,562	112,641,848
Profit Before Tax	35,674,621	51,883,692	66,164,924
Profit After Tax	26,932,992	46,844,136	54,581,782
Paid-up Capital	1,076,950,410	1,076,950,410	1,076,950,410
Total Assets	1,467,091,466	1,404,565,958	1,333,070,411
Break-up Value per Share	10.30	10.02	9.56
(Loss) / Earnings Per Share (EPS)	0.25	0.43	0.51

Future Outlook

The Company intends to expand the core business and has taken steps to enter the more developing individual client market. The management expects to make the Investment Portfolio active for earnings after the expected merger of CSF with and into PICIC, which is still pending before the Honorable Sindh High Court for approval of the SCHEME OF ARRANGEMENT, which once approved will benefit your Company in the investment side.

Earnings per Share

The EPS of the Company stands at Rs. 0.25.

Dividend

The Board of Directors does not recommend any Dividend for the year ended December 31, 2022.

Auditors' Report

- Due to non-availability of impairment testing for investment made in subsidiary companies Crescent Star Technologies (Private) Limited and Crescent Star Luxury (Private) Limited (being private limited) the auditors have expressed their reservations in the auditor's report.
- The Company has made an advance of Rs. 354.279 million for issuance of shares to DSL. Prudent management policy and in the interest of the Company, the Company has charged interest amounting to Rs. 310.639 million on the advance amount and demanded the same from DSL. However, due to non-availability of any written agreement between DSL and CSIL for charging of mark-up, the auditors have expressed their reservation in the auditors' report.

Insurer Financial Strength Rating (IFSR)

The Pakistan Credit Rating Agency Limited (PACRA) has maintained the Company's rating at 'A' with Outlook 'Stable'.

Corporate Social Responsibility

Crescent Star Insurance Limited is fully committed to play its role as a responsible corporate citizen and fulfills its responsibility through;

Occupational safety & health

There are adequate fire extinguishers installed at various points within the working premises. Further, the Company has a dedicate medical facility which is being supervised by a full time Chief Medical Officer posted at Head Office, to take care of employees and their families' health matters and also advise on preventive health care.

INDEPENDENT AUDITOR'S REVIEW REPORT To the members of Crescent Star Insurance Limited

Review Report on Statement of Compliance contained in the Listed Companies (Code of Corporate Governance) Regulations, 2019 and the Code of Corporate Governance for Insurers, 2016

We have reviewed the enclosed Statement of Compliance contained in the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the 'Regulations') and the Code of Corporate Governance for Insurers, 2016 (the 'Code') prepared by the Board of Directors of Crescent Star Insurance Limited (the Company) for the year ended December 31, 2022 in accordance with the requirements of Regulation 36 of the Regulations and provision Ixxvi of the Code.

The responsibility for compliance with the Code and Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations and the Code.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm length transaction and transactions which are not executed at arm lengths price and recording proper justification for using such alternative pricing mechanism and also ensure compliance with the requirements of Section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of audit committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations and the Code as applicable to the Company for the year ended December 31, 2022.

Further we highlighted below instances of non-compliance with the requirement of the Code and Regulations as reflected in paragraphs 2 and 25 of the statement of compliance:

	Code of Corporate Governance Regulations for Listed Companies, 2019 and the Code of Corporate Governance for Insurers, 2016		
S.No	Reference	Description	
1	Section 8 of regulation / Clause b of section 3 of code	The Company has three executive directors out of eight elected directors, which exceed the allowable proportion (one third of elected directors) of executive directors on the Board, as required by the Code. The Company has explained the reason in compliance report for the fraction contained in such one-third number which is rounded off as one.	
2	Section 9 of regulation/ Section 12 of code	The positions of the chairman of the board and the chief executive officer of the Company are held by one person. The company has outlined the justification in the compliance report that the post of Chairman comes with a lot of responsibilities and increased public engagement and none of the directors have expressed willingness to be appointed as Chairman of the Board, as such Mr. Naim Anwar continues to occupy the post of Chairman and CEO as well.	
3	Section 24 of regulation	The positions of the Chief Financial Officer and Secretary are held by one person. The compliance report includes a rationale for the company's decision as the operations and business of the Company is affected by the economic conditions. The Company is looking to cut cost in all related departments. As such the functions of the CFO and Company Secretary are being performed by the same person.

STATEMENT OF COMPLIANCE WITH THE CODE OF CORPORATE GOVERNANCE FOR INSURERS, 2016 & LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

CRESCENT STAR INSURANCE LIMITED ("the Company") **FOR THE YEAR ENDED DECEMBER 31, 2022**

This statement is being presented in compliance with the Code of Corporate Governance for Insurers, 2016 (the Code) for the purpose of establishing a framework of good governance, whereby the Insurer is managed in compliance with the best practices of corporate governance and the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations).

The Company has complied with the requirements of the Regulations in the following manner:-

1. The total number of directors are eight (8), as per the following:

5

- a) Male:
- b) Female: 3
- 2. The Company encourages representation of independent non-executive directors and directors representing minority interests on its Board of Directors (the Board). At present the Board includes:

Category	Names
Independent Directors	Mr. Shaikh Waqar Ahmed
	Ms. Naveeda Mahmud
	Ms. Huma Javaid
Executive Directors	Mr. Naim Anwar, CEO/Chairman
	Mr. Tanveer Ahmed
	Mr. Suhail Elahi
Non-Executive Directors	Mr. Rashid Malik
	Ms. Rabia Omer Hassan

The independent director meets the criteria of independence as laid down under the Code, Regulations and Companies Act, 2017.

The numbers of Executive Directors are rounded off to 3. To effectively manage the business of the Company two executive directors are looking after the north and south regions of the Company.

** The post of Chairman comes with a lot of responsibilities and increased public engagement and none of the directors have expressed willingness to be appointed as Chairman of the Board, as such Mr. Naim Anwar continues to occupy the post of Chairman and CEO as well.

- 3. The directors have confirmed that none of them is serving as a director in more than seven listed companies, including this Company;
- 4. All the resident directors of the Company are registered as taxpayers and none of them has defaulted in payment of any loan to a banking company, a DFI or an NBFI or being a member of a stock exchange has been declared as a defaulter by that stock exchange.

- 5. Casual vacancy occurred on the Board on March 14, 2022. The said vacancy was filled during the year.
- 6. The Company has prepared a "Code of Conduct" which has been disseminated among all directors and employees of Company along with its supporting policies and procedures.
- 7. The Board has developed a vision / mission statement, overall corporate strategy and significant policies of the Company. A complete record of significant policies along with the dates on which they were approved or amended has been maintained by the Company.
- 8. All powers of the Board have been duly exercised and decisions on material transactions, including appointment and determination of remuneration and terms and conditions of employment of the Chief Executive Officer, other executive directors and the key officers, have been taken by the Board. Decisions on relevant matters have been taken by the Board / shareholders as empowered by the relevant provisions of the Act and these Regulations.
- 9. The meetings of the Board were presided over by the Chairman and, in absence, by a Director elected by the Board for this purpose and the Board met at least once in every quarter. Written notices of the Board meetings, along with agenda and working papers, were circulated at least seven (7) days before the meetings. The minutes of the meetings were appropriately recorded and circulated.
- 10. The Board have a formal policy and transparent procedure for remuneration of directors in accordance with the Act and Regulations.
- 11. While almost all the directors are professionals and senior executives who possess wide experience of duties of directors, the Company apprises its directors of new laws and regulations and amendments in the existing ones. The Board plans to arrange directors' training program.
- 12. There was no new appointment of Chief Financial Officer (CFO) or Company Secretary or Head of Internal Audit during the year.
- 13. The financial statements of the Company were duly endorsed by Chief Executive Officer and Chief Financial Officer before approval of the Board.
- 14. The Board has formed the following Management Committees:

Names	Category
Mr. Tanveer Ahmed	Chairman
Mr. Naim Anwar	Member
Ms. Gul Taj	Secretary

a) Underwriting, Reinsurance and Co-insurance Committee

b) Claims Settlement Committee

Names	Category
Mr. Naim Anwar	Chairman
Dr. Atif Rais	Member
Mr. Ashraf Dhedhi	Secretary

c) Risk Management & Compliance Committee

Names	Category
Mr. Naim Anwar	Chairman
Mr. Malik Mehdi Muhammad	Member
Mr. Tanveer Ahmed	Member
Mr. Ashraf Dhedhi	Member

- 15. The Board has formed the following Board Committees comprising of members given below;
 - a) Nomination, Ethics, Human Resource & Remuneration Committee

Names	Category
Ms. Huma Javaid	Chairman
Mr. Shaikh Waqar Ahmed	Member
Mr. Naim Anwar	Member

b) Investment Committee

Names	Category
Mr. Naim Anwar	Chief Executive Officer / Chairman
Mr. Shaikh Waqar Ahmed	Independent Director / Member
Ms. Huma Javaid	Independent Director / Member
Mr. Malik Mehdi Muhammad	Chief Financial Officer

16. The Board has formed an Audit Committee. It presently comprises of three members and all of them are independent director including the chairman of the committee. The Composition of the audit committee is as follows:

Names	Category
Mr. Shaikh Waqar Ahmed	Independent Director / Chairman
Ms. Naveeda Mahmud	Independent Director / Member
Ms. Huma Javaid	Independent Director / Member

- 17. The meetings of the committees except Nomination, Ethics, Human Resource & Remuneration Committee were held at least once every quarter prior to approval of interim and final results of the Company. The terms of references of the Committees have been formed and advised to the Committees for compliance.
- 18. The Board has established a system of sound internal control, which is effectively implemented at all levels within the Company. The Company includes all the necessary aspects of internal control given in the Code.
- 19. The statutory auditors of the Company have been appointed from the panel of auditor approved by the Commission in term of section 48 of the Insurance Ordinance, 2000 (Ordinance No. XXXIX of 2000). The statutory auditors of the Company have confirmed that they have been given a satisfactory rating under the Quality Control Review program of the Institute of Chartered Accountants of Pakistan and registered with Audit Oversight Board of Pakistan, that they or any of the partners of the firm, their spouses and minor children do not hold shares of the Company and that the firm and all its partners are in compliance with International Federation of Accountants (IFAC) guidelines on Code of Ethics as adopted by the Institute of Chartered Accountants of Pakistan and that they and the partners of the firm involved in the audit are not a close relative (spouse, parent, dependent and non-dependent children) of the Chief Executive Officer, Chief Financial Officer, Head of Internal Audit, Company Secretary or director of the Company.
- 20. The statutory auditors or the persons associated with them have not been appointed to provide other services except in accordance with the Act, the Regulation, or any other regulatory requirement and the auditors have confirmed that they have observed IFAC guidelines in this regard.
- 21. The Directors' report for this year has been prepared in compliance with the requirements of the Code and the Regulations and fully describes the salient matters required to be disclosed.
- 22. The Directors, Chief Executive Officer and other executives do not hold any interest in the shares of the Company other than that disclosed in the pattern of shareholding.
- 23. The Company has complied with all the corporate and financial reporting requirements of the Code.
- 24. The Board has set up an effective internal audit function and the head of internal audit is conversant with the policies and procedures of the Company.
- 25. The Chief Executive Officer, Chief Financial Officer, Compliance Officer and the Head of Internal Audit possess such qualification and experience as is required under this Code. Moreover, the persons heading the underwriting, claims, reinsurance, risk management and grievance functions possess qualification and experience of direct relevance to their functions, as required under section 12 of the Insurance Ordinance, 2000 (Ordinance No .XXXIX of 2000):

Names	Designation
Mr. Naim Anwar	Chief Executive Officer
Mr. Malik Mehdi Muhammad	Chief Financial Officer & Company Secretary*
Syed Danish Hasan Rizvi	Head of Internal Audit
Mr. Ashraf Dhedhi	Head of Claims and Compliance Officer
Mr. Tanveer Ahmed	Head of Underwriting, Reinsurance, Risk Management & Grievance Department

* As the operations and business of the Company is affected by the economic conditions. The Company is looking to cut cost in all related departments. As such the functions of the CFO and Company Secretary are being performed by the same person.

- 26. The Board ensures that the investment policy of the Company has been drawn up in accordance with the provision of the Code.
- 27. The Board ensures that the risk management system of the Company is in place as per Code.
- 28. The Company has set up a risk management function, which carries out its tasks as covered under the Code.
- 29. The Board ensures that as part of the risk management system, the Company gets itself rated from PACRA which is being used by its management function/department and the respective committee as a risk monitoring tool. The rating assigned by the rating agency on January 27, 2023 is A with Outlook Stable.
- 30. The Board has set up a grievance department/function, which fully complies with the requirements of the Code.
- 31. The Company has not obtained any exemption(s) from the Securities and Exchange Commission of Pakistan (SECP) in respect of the requirements of the Code.
- 32. We confirm that all requirements of regulations 3, 6, 7, 8, 27, 32, 33 and 36 of the Regulation and all material requirement of Code have been complied.

For and on behalf of the Board of Directors **Crescent Star Insurance Limited**

Naim Anwar Managing Director & CEO

Karachi: March 24, 2023

INDEPENDENT AUDITORS' REPORT To the Members of Crescent Star Insurance Limited Report on the Audit of the Un-consolidated Financial Statements

Qualified Opinion

We have audited the annexed financial statements of **Crescent Star Insurance Limited** (the Company), which comprise of the unconsolidated statement of financial position as at December 31, 2022, and the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows for the year then ended, and notes to the unconsolidated financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters described in the Basis of Qualified Opinion section of the report, the unconsolidated statement of financial position, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at December 31, 2022 and of the total comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Qualified Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

a) As stated in note 8.1 to the unconsolidated financial statements, the Company has recorded accrued interest amounting to Rs. 310.639 million (2021: Rs. 247.374 million) at the rate of one-year KIBOR plus three percent on the advance against issuance of shares to Dost Steels Limited. We have not been provided any documentary evidence to substantiate the Company's claim therefore recoverability of the accrued interest income could not be ascertained. Accordingly, profit before tax and total assets / solvency of the Company are overstated by Rs. 63.265 million (2021: Rs. 41.267 million) and Rs. 310.639 million (2021: Rs. 247.374 million) respectively.

b) As stated in note 8.2 to the unconsolidated financial statements, the Company's carrying value of receivables on account of advance against issuance of shares amounts to Rs. 80.157 million (2021: Rs. 79.608 million). The management has not carried out impairment testing as required by IAS – 36 "Impairment of Assets". No provision for loss, if any, that may result, has been incorporated in the unconsolidated financial statements.

Emphasis of Matter

Without further modifying our opinion, we draw attention to note 16 to the financial statements where management has disclosed the payable balance to the provident fund which has not been deposited within 15 days from the date of collection of liability.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the unconsolidated financial statements of the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our qualified opinion thereon, we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section, we have determined the matter described below to be the key audit matters to be communicated in our report.

S. No	Key Audit Matter	How the matter was addressed in our audit
S. No 01	Key Audit MatterRevenue RecognitionRefer note 3.14 and 19 to the annexedfinancial statementsThe Company revenue primarily basedon premiums and investment incomefrom insurance policies which comprises61 % of total income.We identified revenue recognition as akey audit matter as it is one of the keyperformance indicators of the Companyand because of the potential risk thatrevenue transactions may not berecognized in the appropriate period.	 Our audit procedures included the following: Obtained an understanding, evaluated the design and tested the controls over the process of capturing, processing and recording of premium income; Assessed the appropriateness of the Company's accounting policy for recording of premiums in line with requirements of applicable accounting and reporting standards; Tested the policies on sample basis where premium was recorded close to year end and subsequent to year end, and evaluated that these were recorded in the appropriate accounting period; and Tested the investment income transaction
	The Company revenue primarily based on premiums and investment income from insurance policies which comprises 61 % of total income. We identified revenue recognition as a key audit matter as it is one of the key performance indicators of the Company and because of the potential risk that revenue transactions may not be	 process of capturing, processing and recording of premium income; Assessed the appropriateness of the Company's accounting policy for recording of premiums in line with requirements of applicable accounting and reporting standards; Tested the policies on sample basis where premium was recorded close to year end and subsequent to year end, and

02 Valuation of claim liabilities	
Refer note 3.3.1 and 'Outstanding claims including IBNR" to the annexed financial statements	
	 Obtained an understanding, evaluated the design and tested the controls over the process of capturing, processing and recording of information related to the claims; Inspected significant arrangements with reinsurer to obtain an understanding of contracts terms and assessed that recoveries from reinsurance on account of claims reported has been accounted for based on terms and conditions; Assessed the appropriateness of the Company's accounting policy for recording of claims in line with requirements of applicable accounting and reporting standards; Tested claims transactions on sample basis with underlying documentations to evaluate that whether the claims reported during the year are recorded in accordance with the requirements of the Company's policy and insurance regulations; Assessed the sufficiency of reserving of claim liabilities, by testing calculations on the relevant data including recoveries from reinsurers based on their respective arrangements; Tested specific claims transactions on sample basis necorded close to year end and subsequent to year end with underlying documentation to assess whether claims had been recognized in the appropriate accounting and subsequent to year end with underlying documentation to assess whether claims had been recognized in the appropriate accounting period; and Considered the adequacy of Company's disclosures about the estimates used and the

Information Other than the Unconsolidated Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the unconsolidated financial statements and our auditor's report thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. For the matters described in the Basis for Qualified Opinion section above, we are unable to obtain sufficient appropriate evidence. Accordingly, we are unable to conclude whether or not the other information is materially misstated with respect to this matter.

Responsibilities of Management and Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the requirements of Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017), and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit, in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, except for the matter described in the basis for qualified section of report, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017);
- b) the unconsolidated statement of financial position, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows together with the notes thereon have been drawn up

in conformity with the Insurance Ordinance, 2000, the Companies Act, 2017 (XXI of 2017), and are in agreement with the books of account;

- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980.

The engagement partner on the audit resulting in this independent auditors' report is Imran Shaikh.

CRESCENT STAR INSURANCE LIMITED NOTES TO THE UN-CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022

1 LEGAL STATUS AND NATURE OF BUSINESS

Crescent Star Insurance Limited ('the Company') was incorporated in Pakistan as a Public Limited Company in the year 1957 under the Defunct Companies Act, 1913, now the Companies Act, 2017. The Company is listed on the Pakistan Stock Exchange and its registered office is situated at 2nd Floor, Nadir House, I.I. Chundrigar road, Karachi, Pakistan.

The Company is engaged in providing non-life general insurance services mainly in spheres of fire and property damage, marine, aviation and transport, motor, credit and suretyship, accident and health and miscellaneous insurance.

2 BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE

These unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017; and

- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accounts of Pakistan (ICAP). as are notified under the Companies Act. 2017:

- Provisions of and directives issued under the Companies Act, 2017,the Insurance Ordinance, 2000, Insurance Rules 2017 and the Insurance Accounting Regulations, 2017

In case requirements differ, the provisions or directives of the Companies Act, 2017, the Insurance Ordinance, 2000, the Insurance Rules, 2017, the Insurance Accounting Regulations, 2017, shall prevail.

These unconsolidated financial statements are the separate financial statements of the Company in which investment in subsidiary is accounted for on the basis of cost rather than on the basis of reported results. Consolidated financial statements of the Company are prepared and presented separately.

These unconsolidated financial statements have been prepared as per the prescribed format of presentation of annual financial statements for general insurance companies issued by the Securities and Exchange Commission of Pakistan (SECP) vide its S.R.O 89(1)/2017 dated February 9, 2017.

2.1 Basis of measurement

These unconsolidated financial statements have been prepared under the historical cost convention except for certain obligations under employee retirement benefits which are measured at present value, certain financial instruments which are stated at their fair values and provision for incurred but not reported (IBNR) is made on the basis of actuarial valuation.

In these unconsolidated financial statements, except for the unconsolidated statement of cash flows, all the transactions have been accounted for on an accrual basis.

2.2 Functional and presentation currency

These unconsolidated financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency. All financial information presented in Pak Rupees has been rounded off to nearest Pak Rupee, unless otherwise stated.

STANDARDS, AMENDMENTS AND INTERPRETATIONS TO ACCOUNTING AND REPORTING STANDARDS

2.3 Standards, interpretations of and amendments to the existing accounting standards that have become effective during the year

There are certain new and amended standards, interpretations and amendments that are mandatory for the Company's accounting periods beginning on or after January 01, 2022 but are considered not to be relevant or do not have any significant effect on the Company's operation and therefore not detailed in these financial statements.

2.3.1 IFRS 9 - Financial Instruments and Amendment to IFRS 4 'Insurance Contracts- Applying IFRS 9 with IFRS 4'

IFRS 9 'Financial Instruments' was issued on July 24, 2017. This standard is adopted locally by the Securities and Exchange Commission of Pakistan through its S.R.O. 229 (I)/2019 and is effective for accounting period / year ending on or after June 30, 2019.

IFRS 9 replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39.

Amendment to IFRS 4 'Insurance Contracts- Applying IFRS 9 'Financial Instruments with IFRS 4 (effective for annual periods beginning on or after July 01, 2018). The amendment address issue arising from the different effective dates of IFRS 9 and the forthcoming new standard IFRS 17 'Insurance Contracts'. The amendments introduce two alternative options for entities issuing contracts within the scope of IFRS 4, notably a temporary exemption and an overlay approach. The temporary exemption enables eligible entities to defer the implementation date of IFRS 9. The overlay approach allows an entity applying IFRS 9 from July 01, 2018 onwards to remove from profit or loss the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied.

Temporary Exemption from Application of IFRS 9

As an insurance company, the management has opted temporary exemption from the application of IFRS 9 as allowed by International Accounting Standards Board (IASB) for entities whose activities are predominantly connected with insurance. Additional disclosures, as required by the IASB, for the financial assets with contractual cash flows that meet the 'Solely for Payment of Principal and Interest' (SPPI) criteria excluding those held for trading and for the financial assets that do not meet the SPPI criteria for being eligible to apply the temporary exemption from the application of IFRS 9.

IFRS 9 defines the terms "principal" as being the fair value of the financial asset at initial recognition, and the "interest" as being compensation for (i) the time value of money, and (ii) the credit risk associated with the principal amount outstanding during a particular period of time.

The table below set out the fair values as at the end of reporting period and the amount of change in the fair value during that period for the following two groups of financial assets separately:

- (a) financial assets with contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding, excluding any financial asset that meets the definition of held for trading in IFRS 9, or that is managed and whose performance is evaluated on a fair value basis, and
- (b) all other financial assets

2.3.2 Impact of IFRS 3 – Business Combinations

Amendment to IFRS 3 'Business Combinations' - Definition of a Business (effective for business combinations for which the acquisition date is on or after the beginning of annual period beginning on or after 01 January 2021). The Board has issued amendments aiming to resolve the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The amendments clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments include an election to use a concentration test.

2.3.3 Amendments to IAS 1 'Presentation of Financial Statements' and IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' (effective for annual periods beginning on or after 01 January 2021). The amendments are intended to make the definition of material in IAS 1 easier to understand and are not intended to alter the underlying concept of materiality in IFRS Standards. In addition, the Board has also issued guidance on how to make materiality judgments when preparing their general purpose financial statements in accordance with IFRS Standards.

2.4 Standards, interpretations and amendments not effective at year end

The following revised standards, amendments and interpretations with respect to the approved accounting standards as applicable in Pakistan have not become effective during current year:

Standards, amendments or interpretation	Effective date (annual periods beginning on or after)
Amendments to IAS 1 'Presentation of Financial Statements' - Disclosure	January 01, 2023
Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' - Denition of accounting estimates	January 01, 2023
Amendments to IAS 1 'Presentation of Financial Statements' - Classication of liabilities as current or non-current	January 01, 2023
Amendments to 'IAS 12 Income Taxes' - deferred tax related to assets and liabilities arising from a single transaction.	January 01, 2023

2.5 In addition to the above, the following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan:

Effective date (annual periods beginning on or after)

Standards, amendments or interpretation

IFRS 17 Insurance Contracts

January 01, 2023

2.6 Standards, interpretations and amendments becoming effective in future period but not relevant:

There are certain new standards, amendments to standards and interpretations that are effective for different future periods but are considered not to be relevant to Company's operations, therefore not disclosed in these financial statements.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in the preparation of these unconsolidated financial statements are set out below.

3.1 **Property and equipment**

3.1.1 Owned

These are stated at cost less accumulated depreciation and impairment loss, if any. Depreciation is charged over the estimated useful life of the asset on a systematic basis to unconsolidated statement of comprehensive income applying the reducing balance method at the rates specified in note 6.1 to the unconsolidated financial statements.

Depreciation on additions is charged from the date the assets are available for use. While on disposal, depreciation is charged up to the date on which the assets are disposed off.

Subsequent costs are included in the asset's carrying amount or recognized as separate assets, as appropriate, only when it is possible that the future economic benefits associated with the items will flow to the Company and the cost of the item can be measured reliably. Maintenance and normal repairs are charged to the unconsolidated statement of comprehensive income.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the property and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of asset) is included in the unconsolidated statement of comprehensive income in the year the asset is derecognized.

3.2 Insurance contracts

Insurance contracts are those contracts where the Company (the insurer) has accepted significant insurance risk from another party (the policy holders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policy holders.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during this period, unless all rights and liabilities are extinguished or expired.

Insurance contracts are classified into following main categories, depending on the nature and duration of risk and whether or not the terms and conditions are fixed.

- Marine, aviation and transport;
- Motor;
- Accident and health;
- Credit and suretyship; and
- Miscellaneous

⁻ Fire and property;

These contracts are normally one year insurance contracts except marine and some contracts of fire and property and miscellaneous class. Normally all marine insurance contracts and some fire and property contracts are of three months period.

These contracts are provided to all types of customers based on assessment of insurance risk by the Company. Normally, personal insurance contracts for example. vehicles are provided to individual customers, whereas, insurance contracts of fire and property, marine and transport, accident and other commercial line products are provided to commercial organization.

Fire and property insurance contracts mainly compensate the Company's customers for damage suffered to their properties or for the value of property lost. Customers who undertake commercial activities on their premises could also receive compensation for the loss of earnings caused by the inability to use the insured properties in their business activities.

Marine, aviation and transport class of business provides coverage against loss and damage to goods in transit by any means of conveyance, physical loss or damage to aircraft, ships, and liabilities to third parties and passengers arising from their use.

Motor insurance covers physical loss or damage to the vehicle and liabilities to third parties as provided under the requirements of the Motor Vehicle Ordinance, 1965.

Accident and health insurance contract mainly compensate hospitalization and outpatient medical coverage to the insured. These contracts are generally one year contracts.

Credit and suretyship insurance contracts protects the insured against the risk of causing harm to third parties as a result of their legitimate activities. Damages covered include both contractual and non-contractual events. These contracts are generally one year contracts.

Other types of insurance are classified in miscellaneous category which includes mainly engineering, terrorism, personal accident, worker compensation, travel, products of financial institutions and crop insurance etc.

3.3 Claims

Claims are charged to unconsolidated statement of comprehensive income as incurred based on estimated liability for compensation owed under the insurance contracts. It includes related internal and external claims handling costs that are directly related to the processing and settlement of claims, a reduction for the value of salvage and other recoveries and any adjustments to claims outstanding from previous years.

These funds are administered by trustees. The pension plan is a career average salary plan and the gratuity plan is a final basic salary plan. The actuarial valuation of both the plans is carried out on a yearly basis using the Projected Unit Credit Method and contributions to the plans are made accordingly.

Actuarial gains and losses are recognized in other comprehensive income in the year in which they arise.

3.3.1 Provision for outstanding claims (including IBNR)

A liability for outstanding claims is recognized in respect of all claims incurred as at the reporting date which represents the estimates of the claims intimated or assessed before the end of the accounting year and measured at the undiscounted value of expected future payments. Provision for outstanding claims include amounts in relation to unpaid reported claims, claims incurred but not reported (IBNR) and expected claims settlement costs.

Reinsurance recoveries against outstanding claims are recognized as an asset and measured at the amount expected to be received

i) Claims reported but not settled

Provision for liability in respect of claims reported but not settled at the reporting date is made on the basis of individual case estimates. The case estimates are based on the assessed amounts of individual losses and where loss assessments have not been carried out, the estimates are established in light of currently available information, past experience of similar claims and in some cases in relation to the sums insured. Case estimated are reviewed periodically to ensure that the recognized outstanding claims amount are adequate to cover expected future payments including expected claims settlement cost and are updated as and when new information becomes available.

ii) Claims incurred but not reported

The provision for claims incurred but not reported is made at the reporting date in accordance with SECP circular no. 9 dated March 09, 2016. The Company has changed its method of estimation of IBNR. The Company now takes actuarial advice for the determination of IBNR claims. IBNR claims have been estimated using 'Chain Ladder' (CL) methodology. The CL method involves determination of development factors or link ratios for each period. These are then subsequently combined to determine cumulative development factor (CDF), which represents the extent of future development of claims to reach their ultimate level.

3.4 Premium deficiency reserve / liability adequacy test

At each financial statement date, liability adequacy tests are performed separately for each class of business to ensure the adequacy of the unearned premium liability for that class. It is performed by comparing the expected future liability, after reinsurance, from claims and other expenses, including reinsurance expense, commissions and other underwriting expenses, expected to be incurred after financial statement date in respect of policies in force at financial statement date with the carrying amount of unearned premium liability. Any deficiency is recognized by establishing a provision (premium deficiency reserve) to meet the deficit.

The movement in the premium deficiency reserve is recognized as an expense or income in the profit and loss account

The expected future liability is estimated with reference to the experience during the expired period of the contracts, adjusted for significant individual losses, which are not expected to recur during the remaining period of the policies, and expectations of future events that are believed to be reasonable. The expected ultimate net claim ratios for the unexpired periods of policies in force at financial statement date for each class of business is as follows:

	2022	2021
 Fire and property damage 	-80%	-60%
 Marine, aviation and transport 	63%	73%
- Motor	22%	27%
 Accident & health 	-6%	103%
 Credit & Suretyship 	1%	2%
- Miscellaneous	18%	18%

3.5 Reinsurance contracts

Contracts entered into by the Company with reinsurers under which the Company cedes insurance risks assumed during normal course of its business and according to which the Company is compensated for losses on insurance contracts issued by the Company are classified as reinsurance contracts held.

Reinsurance premium is recognized as an expense at the time the reinsurance is ceded. Commission on reinsurance cessions are recognized in accordance with the policy of recognizing premium revenue.

Reinsurance assets represent balances due from reinsurance companies and reinsurance recoveries against outstanding claims. Reinsurance recoveries are estimated in a manner consistent with the outstanding claims provision and are in accordance with the reinsurance contracts. Reinsurance liabilities represent balances due to reinsurance companies and are primarily premiums payable for reinsurance contracts and are recognized at the same time when reinsurance premiums are recognized as an expense.

Reinsurance assets or liabilities are derecognized when the contractual rights are extinguished or expired.

An impairment review of reinsurance assets is performed at each financial statement date. If there is objective evidence that the asset is impaired, the Company reduces the carrying amount of the reinsurance asset to its recoverable amount and recognizes that impairment loss in the profit and loss account.

3.6 Receivables and payables related to insurance contracts

Receivables and payables related to insurance contracts are recognized when due at cost which is the fair value of the consideration given less provision for impairment, if any. If there is objective evidence that the insurance receivable is impaired, as a result of one or more events that occurred after the initial recognition, the Company reduces the carrying

amount of the insurance receivable accordingly and recognizes that impairment loss in the profit and loss account.

Provision for impairment in premium receivables is estimated on a systematic basis after analyzing the receivables as per their ageing.

3.7 Insurance / Reinsurance receivable

Receivables under insurance contracts are recognized when due at the fair value of consideration receivable less provision for doubtful debts, if any. If there is an objective evidence that any premium due but unpaid is impaired, the Company reduces the carrying amount of that insurance receivable and recognizes the loss in profit and loss account.

3.8 Prepaid reinsurance expense

Premium for reinsurance contracts operative on a proportional and non-proportional basis is recorded as a liability on attachment of the underlying risks reinsured or on inception of the reinsurance contract respectively. For proportional reinsurance contracts, the reinsurance expense is recognized evenly in the period of indemnity. The portion of reinsurance premium not recognized as an expense is shown as a prepayment.

3.9 Reinsurance recoveries against outstanding claims

Commission expenses incurred in obtaining and recording policies is deferred and recognized as an expense in accordance with pattern of recognition of premium revenue by applying the 1/24th method.

3.10 Deferred commission expense/ Acquisition cost

Commission expenses incurred in obtaining and recording policies is deferred and recognized as an expense in accordance with pattern of recognition of premium revenue by applying the 1/24th method.

3.11 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the Company's other components. All operating segments' results are reviewed regularly by the Company to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Based on its classification of insurance contracts issued, the Company has five primary business segments for reporting purposes namely Fire and Property Damage, Marine Aviation and Transport, Motor, Crop and Miscellaneous. The nature and business activities of these segments are disclosed in respective notes to the financial statements.

Assets, liabilities and capital expenditures that are directly attributable to segments have been assigned to them while the carrying amount of certain assets used jointly by two or more segments have been allocated to segments on a reasonable basis. Those assets and liabilities, which cannot be allocated to a particular segment on a reasonable basis, are reported as unallocated corporate assets and liabilities.

3.12 Financial instruments

Financial assets and financial liabilities within the scope of IAS - 39 are recognized at the time when the Company becomes a party to the contractual provisions of the instrument and de-recognized when the Company loses control of contractual rights that comprise of the financial assets and in the case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognizing of the financial assets and financial liabilities is included in the profit and loss account for the year.

Financial instruments carried on the statement of financial position date include cash and bank deposits, investments, insurance/reinsurance receivables, premium and claim reserves detained by cedants, accrued investment income, reinsurance recoveries against outstanding claims, sundry receivables, provision for outstanding claims, insurance/reinsurance payables, other creditors and accruals and liabilities against assets subject to finance lease.

3.13 Cash and cash equivalents

Cash and cash equivalents are carried in the unconsolidated statement of financial position at cost. For the purpose of unconsolidated cash flow statement, cash and cash equivalents consists of cash in hand, stamps in hand and deposits with banks.

3.14 Revenue recognition

3.14.1 Premium income earned

Premium income includes administrative surcharge that represents documentation and other charges recovered by the Company from policy holders in respect of policies issued.

For all the insurance contracts, premiums / cover notes issued including administrative surcharge received / receivable under a policy / cover note are recognized as written from the date of attachment of the risk to the policy / cover note and over the period of the insurance from inception to the expiry of policy. Where premiums for a policy are payable in instalments, full premium for the duration of the policy is recognized as written at the inception of the policy and related assets set up for premiums receivable at a later date. Premiums are stated gross of commission payable to intermediaries and exclusive of taxes and duties levied on premiums.

3.14.2 Provision for unearned premium

Majority of the insurance contracts entered into by the Company are for a period of twelve months. Provision for unearned premium represents the portion of premium written relating to the unexpired period of coverage and is recognized as a liability by the Company. This liability is calculated as follows:

- Marine cargo business, as a ratio of the unexpired period to the total period of the policy applied on the aross premium of the individual policies:
- Contracts of twelve months tenure, by applying the twenty-fourths' method as specified in the Insurance Rules, 2017, as majority of the remaining policies are issued for a period of one year; and
- Contracts having tenure of more than twelve months, the Company maintains provision for unearned premium net of reinsurance expense to the unexpired period of coverage at the reporting date.

3.14.3 Commission income

Commission income from reinsurers / co-insurers / others is recognized at the time of issuance of the underlying insurance policy by the Company. This income is deferred and accounted for as revenue in accordance with the pattern of recognition of reinsurance/ co-insurance / other premium to which they relate. Profit commission if any, which the Company may be entitled under the terms of reinsurance is recognized on accrual basis.

3.14.4 Commission income unearned

Commission and other forms of revenue (apart from recoveries) from reinsurers are deferred and recognized as liability and recognized in the unconsolidated statement of comprehensive income as revenue in accordance with the pattern of recognition of the reinsurance premiums.

3.14.5 Investment income

- Return on investments and term deposits are recognized using the effective interest rate method. Profit or loss on sale of investments is recognized at the time of sale. Dividend income is recognized when right to receive such dividend is established.
- Gain / (loss) on sale of investments is charged in unconsolidated statement of comprehensive income.

3.14.6 Dividend income and other income

- Dividend income and entitlement of bonus shares are recognized when the Company's right to receive such dividend and bonus shares is established. Rental and other income are recognized as and when accrued.
- Return on bank deposits is recognized on a time proportionate basis taking into account the effective vield.

3.15 Investments

3.15.1 Recognition

All investments are initially recognized at cost, being the fair value of the consideration given and including transaction cost, except for held for trading investments in which case transaction costs are charged to the profit and loss account. These are classified into the following categories:

- In subsidiary and associates
- In equity securities
- In debt securities
- In term deposits

3.15.2 Measurement

In subsidiary and associates

Entities in which the Company has significant influence but not control and which are neither its subsidiary nor joint ventures are associates and are accounted for by using the equity method of accounting.

Under equity method of accounting, the investments are initially recognised at cost; thereafter its carrying amount is increased or decreased for the Company's share of post acquisition changes in the net assets of the associate and dividend distributions. Goodwill relating to an associate is included in carrying amount of the investment and is not amortized. The Company's share of the profit and loss of the associate is accounted for in the Company's profit and loss account, whereas changes in the associate's equity which has not been recognised in the associates' profit and loss account are recognised directly in other comprehensive income of the Company.

After application of equity method, the carrying amount of investment in associate is tested for impairment by comparing its recoverable amount (higher of value in use and fair value less cost to sell) with its carrying amount and loss, if any, is recognised in profit and loss account.

In equity securities - Available for sale

Available for sale investments are those non-derivative investments that are designated as available for sale or are not classified in any other category. These are primarily those investments that are intended to be held for an undefined period of time or may be sold in response to the need for liquidity. At the time of acquisition, investments which are intended to be held for an undefined period of time but may be sold in response to the need for liquidity or changes in interest rates are classified as available-for-sale.

Subsequent to initial measurement, these are remeasured at fair value. Surplus / (deficit) on revaluation from one reporting date to other is taken to other comprehensive income in the Statement of Comprehensive Income. On derecognition

or impairment of available-for-sale investments, the cumulative gain or loss previously reported in other comprehensive income is transferred to profit and loss for the period within Statement of Comprehensive Income. Whereas, any reversal in impairment is taken in Statement of Comprehensive Income.

These are reviewed for impairment at each reporting date and any losses arising from impairment in values are charged to the profit and loss account.

In debt security - Held to maturity

At the time of acquisition, investments with fixed maturity, where management has both the intent and the ability to held to maturity, are classified as held to maturity.

Subsequently, these are measured at amortized cost less provision for impairment in value, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition using the effective vield method.

The difference between the redemption value and the purchase price of the held to maturity investments is amortized and taken to the profit and loss account over the term of investment. These are reviewed for impairment at year end and any losses arising from impairment in values are charged to the profit and loss account.

In term deposits - Held to maturity

At the time of acquisition, investments with fixed maturity, where management has both the intent and the ability to held to maturity, are classified as held to maturity.

Subsequently, these are measured at amortized cost less provision for impairment in value, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition using the effective vield method.

The difference between the redemption value and the purchase price of the held to maturity investment is amortized and taken to the profit and loss account over the term of investment.

These are reviewed for impairment at year end and any losses arising from impairment in values are charged to the profit and loss account.

All investments are initially recognized at cost, being the fair value of the consideration given and include transaction costs, except for held for trading investment in which case transaction costs are charged to the profit and loss account. Investments are recognized and classified as follows:

- Held to Maturity investments;
- Available for sale investments;
- Held for Trading investments.

3.15.3 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when there is a legally enforceable right to set off the recognized amount and the Company intends either to settle on a net basis or to realize the assets and to settle the liabilities simultaneously.

3.15.4 Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is an objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For available for sale equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be an objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organization; or
- the disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial assets, such as trade receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at Held to Maturity, the amount of the impairment loss recognized is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets that are carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods. The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written-off against the allowance account. Subsequent recoveries of amounts previously written-off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in unconsolidated statement of comprehensive

income.

When an Available for sale financial asset is considered to be impaired, cumulative gains or losses previously recognized in other comprehensive income are reclassified to unconsolidated statement of comprehensive income.

For financial assets measured at held to maturity, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through unconsolidated profit and loss account to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

In respect of available for sale equity securities, impairment losses previously recognized in unconsolidated profit and loss account are not reversed through unconsolidated profit and loss account. Any increase in fair value subsequent to an impairment loss is recognized in unconsolidated other comprehensive income. In respect of available for sale debt securities, impairment losses are subsequently reversed through unconsolidated profit and loss account if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

a) Quoted

Subsequent to initial recognition, these investments are remeasured at fair value. Gains or losses on investments on remeasurement of these investments are recognised in unconsolidated statement of comprehensive income.

b) Unquoted

Unquoted investments are recorded at cost less accumulated impairment losses, if any.

c) Investment in equity instruments of subsidiaries companies

Investment in subsidiaries are accounted for at cost less accumulated impairment losses. Dividend income from these investments is recognized in unconsolidated profit or loss and included in other income when the Company's right to receive payments has been established.

3.15.5 Date of recognition

Regular way purchases and sales of investments that require delivery within the time frame established by regulations or market convention are recognized at the trade date. Trade date is the date on which the Company commits to purchase or sell the investment.

3.16 Dividend declaration

Final dividend distribution to the Company's shareholders is recognized as a liability in the unconsolidated balance sheet in the period in which the dividends are approved, while interim dividend distributions are recognized in the period in which the dividends are declared by the Board of Directors. However, if these are approved after the reporting period but before the unconsolidated financial statements are authorized for issue, they are disclosed in the notes to the unconsolidated financial statements.

3.17 Dividend distribution

Profit distribution to share holders is recognized as a deduction from accumulated profit in statement of changes in equity and as a liability, to the extent it is unclaimed/unpaid, in the Company's financial statements in the year in which the dividends are approved by the Board of Directors.

3.18 Management expenses

Management expenses include expenses incurred for the purpose of business and are recorded in the financial statements as and when accrued.

3.19 Creditors, accruals and provisions

Liabilities for creditors and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for the goods and / or services received, whether or not billed to the Company.

Provisions are recognised in the unconsolidated statement of financial position when the Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of economic benefits will be required to settle the obligations and a reliable estimate can be made of the amount of the obligation.

3.20 Foreign currency translation

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date. Exchange difference, if any, are taken to unconsolidated statement of comprehensive income.

3.21 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effect of all dilutive potential ordinary shares.

3.22 Taxation

3.22.1 Current

Provision of current tax is based on the taxable income for the year determined in accordance with the Income Tax Ordinance, 2001 for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted. The charge for current tax also includes adjustments, relating to prior year which arises from assessments framed/ finalized during the year or required by any other reason.

3.22.2 Deferred

Deferred tax is recognised using balance sheet liability method, providing for temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using the tax rates enacted or substantively enacted at the reporting date. The Company recognises a deferred tax asset to the extent of taxable timing differences or it is probable that taxable profits for the foreseeable future will be available against which the assets can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3.23 Staff retirement benefits

3.23.1 Defined contribution plan

The Company contributes to an approved provident fund scheme which covers all permanent employees. Equal contributions are made both by the Company and the members to the fund at the rate of 10% of basic salarv.

3.23.2 Employees' compensated absences

The Company accounts for accumulated compensated absences on the basis of the un-availed leave balances at the end of the vear.

3.24 Impairment

A financial asset is assessed at each financial statement date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if there is objective evidence that one or more events have had a negative effect on the estimated future cash flows of that asset.

If a decline in fair value is significant or prolonged, then there is objective evidence of impairment, regardless of how long management intends to hold the investment. If there has been a significant or prolonged decline in the market price of subsidiary/associate at the reporting date, then the impairment test is performed in accordance with IAS 36.

The carrying amount of non-financial assets is reviewed at each financial statement date to determine whether there is any indication of impairment of any asset or a group of assets. If such indication exists, the recoverable amount of such asset is estimated. The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. An impairment loss is recognized if the carrying amount of an asset exceeds its estimated recoverable amount.

All impairment losses are recognized in the profit and loss account. Provisions for impairment are reviewed at each financial statement date and are adjusted to reflect the current best estimates. Changes in the provisions are recognized as income or expense.

3.25 Related party transactions

Party is said to be related, if they are able to influence the operating and financial decisions of the Company and vice versa. The Company in the normal course of business carries out transactions with related parties. Transactions with related parties are priced at comparable uncontrolled market price and are carried out at arm's length prices.

3.26 Zakat

Zakat on investment income is accounted for in the year of deduction, under Zakat and Ushr Ordinance, 1980.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these unconsolidated financial statements in conformity with accounting and reporting standards requires management to make judgments, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The judgments, estimates and assumptions are based on historical experience, current trends and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the estimates about carrying value of assets and liabilities that are not readily apparent from other sources.

Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

In particular, the matters involving a higher degree of judgment or complexity, or areas where

assumptions and estimates are significant to the unconsolidated financial statements are:

	Note
- Provision for outstanding claims (including IBNR)	3.3.1
- Premium deficiency reserve	3.4
- Provision for doubtful receivables	9
 Useful lives and residual values of property and equipment 	3.1
- Provision for unearned premium	3.14.2
- Premium due but unpaid	9.0.
 Provision for taxation and deferred tax 	3.22
- Segment reporting	3.11

18 CONTINGENCIES AND COMMITMENTS

18.1 Contingencies

The Company is defendant in following:

- **18.1.1** The Company filed a petition No. 1027/2022 against Federal Board of Revenue (FBR) in respect of notice of encashment of guarantee given for the duties and taxes under Afghan Transit Rules amounting to Rs. 26 million. The Custom authorities claim that there was pilferage and the goods did not cross Afghan border. The company stand is that the primary responsibility for pilferage is on the bonded carrier. The High Court has granted stay against the notice of encashment.
- **18.1.2** Phillip Morris (Pakistan) Limited has filed suit 33/2021 against the Company for encashment of performance bond given amounting to Rs. 100 million. The party on whose behalf the bond was given has obtained stay order against encashment of guarantee. Further the company is secured by counter guarantee and cheque in respect of the bond amount.
- **18.1.3** Suit 6/2022 has been filed by the legal heirs of insured Farzana Akhlaq in relation to travel policy claims amounting to Rs. 11 million. The suit was filed against Company's repudiation of the travel claim on the grounds of pre-existing condition. As per terms of policy pre-existing conditions were not covered.
- **18.1.4** Suit 1036/2019 was filed by Pakistan Reinsurance Company Limited for recovery of outstanding amount against CSIL amounting to Rs. 75 million. The amount claimed by Pakistan Reinsurance is disputed by the Company.
- **18.1.5** The Company filed Petition No. 14146/2022 against Securities and Exchange Commission of Pakistan (SECP) in respect of refusal of SECP to refund the excess statutory deposit being maintained with State Bank of Pakistan (SBP) amounting to Rs. 7.26 million. as on the date of petition. The excess statutory deposit as on Dec 2022 is Rs.19 million. The Company is required to maintain statutory deposit equivalent to 10% of the paid up capital less discount on the issuance of shares. SECP interpretation is that the requirement to maintain statutory deposit is 10% of paid up capital without taking the discount factor.
- **18.1.6** The Company is defending various law suits in the court of law. In these cases, claims against the company amounted to less than Rs.10 million. The Company, based on the opinion of its legal advisors, is confident that the ultimate outcome of all of the matters provided above will be in its favor. Accordingly, no provision in respect of any above mentioned liabilities has been made in these financial statements

28 COMPENSATION OF DIRECTORS AND EXECUTIVES

28.1 Non-Executive Directors were paid Rs. 0.1875 million (2021: Rs. 0.05 million) for attending Board of Directors meetings during the year. In addition, Chief Executive Officer was also provided with free use of the Company maintained cars in accordance with his entitlements. Chief executive, directors and executives are also provided provident fund facility in which contribution of both employer and employee is at a rate of 10%.

29 RELATED PARTY RELATIONSHIPS

Name of related parties

Crescent Star Foods (Private) Limited Crescent Star Luxury (Private) Limited Crescent Star Technology (Private) Limited

30 RELATED PARTY TRANSACTIONS

Related parties comprise of group companies, directors and their close family members its staff retirement funds, key management personnel and major shareholders of the Company. The associated companies are associated either based on its holding in equity or due to the same management and / or common directors. All transactions involving related parties arising in the normal course of business are conducted at agreed terms and conditions. Transactions with the key management personnel are made under their terms of

employment / entitlements. Contributions to the employee retirement benefits are made in accordance with the terms of employee retirement benefit schemes.

Balances, including subsidiaries, are disclosed in relevant notes to these unconsolidated financial statements. Details of transactions with related parties during the year, other than those which have been disclosed elsewhere in these unconsolidated financial statements, are as follows:

32 MANAGEMENT OF INSURANCE RISK AND FINANCIAL RISK

Insurance Risk

The Company accepts the insurance risk through its insurance contracts where it assumes the risk of loss from persons or organizations that are directly subject to the underlying loss. The Company is exposed to the uncertainty surrounding the timing, frequency and severity of claims under these contracts.

The Company manages its risk via its underwriting and reinsurance strategy within an overall risk management framework. Exposures are managed by having documented underwriting limits and criteria. Reinsurance is purchased where necessary to mitigate the effect of potential loss to the Company from individual large or catastrophic events and also to provide access to specialist risks and to assist in managing capital.

A concentration of risk may also arise from a single insurance contract issued to a particular demographic type of policy holder, within a geographical location or to types of commercial business. The Company minimizes its exposure by prudent underwriting and reinsuring policies where necessary.

Frequency and severity of claims

Risk associated with general insurance contracts includes the reasonable possibility of significant loss as well as the frequent occurrence of the insured events. This has been managed by having in place underwriting strategy and proactive claim handling procedures.

The Company's class wise major risk exposure is as follows:

	Maximum Gross Risk Exposure			
	2022	2021		
	RUPEES (000)			
Class				
Fire and property damage	128,489	184,828		
Marine, aviation and transport	3,823,817	2,388,245		
Motor	2,397,686	1,412,951		
Accident and health	-	5,000		
Credit and suretyship	228,844,565	145,908,544		
Miscellaneous	77,908,517	24,354,116		
	313,103,074	174,253,683		

Uncertainty in the estimation of future claims payments

Claims on general insurance contracts are payable on a claim occurrence basis. The Company is liable for all insured events that occur during the term of the insurance contract including the event reported after the expirv of the insurance contract term.

An estimated amount of the claim is recorded immediately on the intimation to the Company. The estimation of the amount is based on management judgment or preliminary assessment by the independent surveyor appointed for this purpose. The initial estimates include expected settlement cost of the claims. For the estimation of provision of claims IBNR, the Company follows the recommendation of actuary.

There are several variable factors which affect the amount and timing of recognized claim liabilities. The Company takes all reasonable measures to mitigate the factors affecting the amount and timing of claim settlements. However, uncertainty prevails with estimated claim liabilities and it is likely that final settlement of these liabilities may be significantly different from initial recognized amount. Similarly, the provision for claims incurred but not reported is based on historic reporting pattern of the claims other then exceptional losses. Hence, actual amount of incurred but not reported claims may differ from the amount estimated.

Key assumptions

The principal assumption underlying the liability estimation of IBNR and premium deficiency reserves is that the Company's future claim development will follow similar historical pattern for occurrence and reporting. The management uses qualitative judgment to assess the extent to which past occurrence and reporting pattern will not apply in future. The judgment includes external factors for example. treatment of one-off occurrence claims, changes in market factors, economic conditions, etc. The internal factors such as portfolio mix, policy conditions and claim handling procedures are further used in this regard.

At the year end, actuarial valuation is carried out for the determination of IBNR which is based on a range of standard actuarial claim projection techniques, based on empirical data and current assumptions that may include a margin for adverse deviation as required/ allowed by the circular 9 of 2016. IBNR is determined by using Chain Ladder Method for all class of business The claims outstanding and claims paid till date are deducted from the ultimate claim payments for that particular year to derive an IBNR estimate for that year. IBNR triangles are made on a yearly basis for each class of business except for health which is made on a quarterly basis. The methods used, and the estimates made, are reviewed regularly.

The Company determines adequacy of liability of premium deficiency reserves by carrying out analysis of its loss ratio of expired periods of the contracts. For this purpose average loss ratio of last three years inclusive of claim settlement cost but excluding major exceptional claims are taken into consideration to determine ultimate loss ratio to be applied on unearned premium.

The assumed net of reinsurance loss ratios for each class of business for estimation of premium deficiency reserves is as follows:

Class	Assumed ne	et loss ratio
	2022	2021
	Percenta	ge (%)
Fire and property	-80%	-60%
Marine, aviation and transport	63%	73%
Motor	22%	27%
Accident and health	-6% 103%	
Credit and suretyship 1%		2%
Miscellaneous	18%	18%

Sensitivities

The insurance claim liabilities are sensitive to the incidence of insured events and severity / size of claims. The impact of variation in incidence of insured events on gross claim liabilities, net claim liabilities, profit before tax and equity is as follows:

Particulars	Change in assumption	Impact on gross Impact on net liabilities		Impact on profit before tax	Impact on equity
Average claim costs			(RUPEES)		
2022	+ 10%	403,374	403,374	403,374	286,395
2021	+ 10%	982,725	982,725	982,725	697,735

32.1 FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

Financial risk management objectives and policies

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk (including interest / mark up rate risk and price risk)

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk and the Company's management of capital. Further quantitative disclosures are included throughout these unconsolidated financial statements.

The Board of Directors (the Board) has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. It is the Company's policy that no trading in derivatives for speculative purposes shall be undertaken. The Board reviews and agrees policies for managing each of these risks.

The Company's Board oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

32.2 Credit risk and concentration of credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company attempts to control credit risk by monitoring credit exposures by undertaking transactions with a large number of counterparties in various industries and by continually assessing the credit worthiness of counterparties.

Concentration of credit risk occurs when a number of counterparties have a similar type of business activities. As a result, any change in economic, political or other conditions would effect their ability to meet contractual obligations in similar manner. The Company's credit risk exposure is not significantly different from that reflected in the unconsolidated financial statements. The management monitors and limits the Company's exposure to credit risk through monitoring of client's exposure and conservative estimates of provisions for doubtful assets, if any. The management is of the view that it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in entities of sound financial standing, covering various industrial sectors.

The Company is exposed to credit risk from its operating activities primarily for premiums due but unpaid, amount due from other insurers/reinsurers, reinsurance recoveries against outstanding claims and other financial assets.

a) The carrying amount of financial assets represents the maximum credit exposure as specified below:

	Category of financial assets	2022	2021
		RUPEE	S
Bank deposits	Loans and receivables	5,606,296	13,835,744
Investments:			
Government securities	Held to maturity	-	-
Equity & other securities	Available for sale	109,602,600	97,496,853
Premiums due but unpaid	Loans and receivables	190,370,042	207,366,130
Accrued investment income	Loans and receivables	-	-
Amount due from other insurers / reinsurers	Loans and receivables	-	1,003,326
Reinsurance recoveries against outstanding claims	Loans and receivables	-	2,595,202
Loans and other receivables	Loans and receivables	988,042,672	915,153,784
	_	1,293,621,610	1,237,451,039

Geographically there is no concentration of credit risk.

The Company does not held collateral as security. There is no single significant customer in the receivables of the Company.

General provision is made for premium due but unpaid against doubtful receivables as disclosed in note 9 to these unconsolidated financial statements. The remaining past due balances were not impaired as they relate to a number of policy holders and other insurers/reinsurers for whom there is no recent history of default.

Age analysis of financial assets at the reporting date is as below:

2022	Carrying Amount	Upto 1 year	From 1 to 2 years	More than 2 years			
	RUPEES						
Financial assets							
Premiums due but unpaid	190,370,042	49,038,804	18,768,222	122,563,016

			5,801,824	14,158,164

c) The credit quality of amount due from other insurers and reinsurers can be assessed with reference to external credit ratings as follows:

Particulars	Amount due from other insurers / reinsurers	Reinsurance recoveries against outstanding claims	Other reinsur ance asset	2022	2021
			Rupe	es	
A or above	-	-		-	2,595,202
BBB	-	-	-	-	-
Others	-	-	-	-	-
Total	-	-	-	-	2,595,202

32.3 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities. The Company is financing its operations mainly through equity, working capital and musharaka to minimize risk.

The followings are the contractual maturities of financial liabilities, including estimated markup payments on an undiscounted cash flow basis:

	2022					
Particulars	Carrying amount	Contractual cash flows	Up to 1 year	Greater than 1 year		
		RUI	PEES			
Financial liabilities measured at Held to Maturity:						
Provision for outstanding claims	65,564,985	65,564,985	65,564,985	-		
Amounts due to other insurers	-	-	-	-		
Other creditors	20,269,199	20,269,199	20,269,199	-		
Obligation under musharaka	-	-	-	-		
Unpresented dividend warrants	418,209	418,209	-	418,209		
	86,252,393	86,252,393	85,834,184	418,209		

		2021					
Particulars	Carrying amount	Contractual cash flows	Up to 1 year	Greater than 1 year			
		RUPEES					
Financial liabilities measured at amortised cost:							
Provision for outstanding claims	67,702,359	67,702,359	67,702,359	-			
Amounts due to other insurers	-	-	-	-			
Other creditors	27,994,620	27,994,620	27,994,620	-			
Obligation under musharaka	-	-	-	-			
Unpresented dividend warrants	418,209	418,209	-	418,209			
	96,115,188	96,115,188	95,696,979	418,209			

32.4 Market risk

Market risk means that the fair value or future cash flows of financial instrument will fluctuate because of changes in market prices. The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The market risks associated with the Company's business activities are interest / mark up rate risk and price risk. The Company is not exposed to material currency risk.

(a) Interest rate risk exposure

Interest/mark-up rate risk is the risk that value of a financial instrument or future cash flows of a financial instrument will fluctuate due to changes in the market interest/mark-up rates. Sensitivity to interest / mark up rate risk arises from mismatches of financial assets and liabilities that mature in a given period.

At the reporting date, the interest rate profile of the Company's significant interest bearing financial instruments are as follows:

	2022						
Particulars	Interes	Interest / mark-up bearing financial instruments					
	Effective rate % per anum	Maturity upto one year	Maturity over one year	Sub-total	mark-up bearing financial	Total	
			Rup	ees			
Financial assets							
Investments				-	109,602,600	109,602,600	
Equity securities	-		-	-	-	-

32.5 Sensitivity analysis

Change in interest rate will not effect fair value of any financial instrument. The Company is not exposed to significant mark-up rate risk as the Company has not entered into any significant variable rate instruments.

a) Price risk

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest / mark up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market. Company is exposed to equity price risk since it has investments in quoted equity securities with fair value of Rs. 102,602,600 (2021: Rs. 97,496,853) at the reporting date.

.

The Company's strategy is to hold its strategic equity investments for long period of time. Thus, Company's management is not concerned with short term price fluctuations with respect to its strategic investments provided that the underlying business, economic and management characteristics of the investee remain favourable. The Company manages price risk by monitoring exposure in quoted equity securities and implementing the strict discipline in internal risk management and investment policies.

The carrying value of investments subject to equity price risk are based on quoted market prices as of the reporting date.

Market prices are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Furthermore, amount realized in the sale of a particular security may be affected by the relative quantity of the security being sold. However, the Company has no significant concentration of price risk.

Sensitivity analysis

The table below summarizes Company's equity price risk as on December 31, 2022 and 2021 shows the effects of a hypothetical 10% increase and a 10% decrease in market prices as at the year end. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Indeed, results could be better or worse in Company's equity investment portfolio because of the nature of equity markets.

...

11 12 1

Particulars	Hypothetical price change	Fair value	Estimated fair value after hypothetical change in prices Hypothetical increase / (decrease) in shareholders' equity		Hypothetical increase / (decrease) in profit / (loss) before tax
			Rupees		
December 31, 2022	10% increase 10% decrease	109,602,600	120,562,860 98,642,340	10,960,260 (10,960,260)	10,960,260 (10,960,260)
December 31, 2021	10% increase 10% decrease	97,496,853	107,246,538 87,747,168	9,749,685 (9,749,685)	9,749,685 (9,749,685)

The impact of hypothetical change would be as follows:

Т

Sensitivity analysis

The risks associated with the insurance contracts are complex and subject to a number of variables which complicate quantitative sensitivity analysis. The Company makes various assumptions and techniques based on past claims development experience. This includes indications such as average claims cost, ultimate claims numbers and expected loss ratios. The Company considers that the liability for insurance claims recognised in the unconsolidated statement of financial position is adequate. However, actual experience will differ from the expected outcome.

As the Company enters into short term insurance contracts, it does not assume any significant impact of changes in market conditions on unexpired risks. However, some results of sensitivity testing are set out below, showing the impact on profit/(loss) before tax net of reinsurance.

Particulars		on pre tax it/(loss)	Shareholder	s' equity

	(35,014)	191	(24,159)	131	

32.6 CAPITAL MANAGEMENT

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and to maintain a strong capital base to support the sustained development of its business.

The Company manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions.

In accordance with Insurance Rules, 2017 issued by the Securities and Exchange Commission of Pakistan (SECP) vide SRO 89(1)/2017, minimum paid-up capital requirement to be complied with by Insurance as at December 31, 2018 and subsequent year is Rs. 500 million. As at December 31, 2022 the Company's paid-up capital is in excess of the prescribed limit.

32.7 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

32.7.1 The management considers the carrying amount of all financial assets and liabilities not measured at fair value at the end of the reporting period to approximate their fair value as at the reporting date.

IFRS 13 defines fair value as an exit price. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value is an amount for which an asset could be exchanged or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, difference may arise between the carrying values and fair values estimates.

The Company measures the fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2 : Valuation techniques for which the lower level input that is significant to the fair value measurement is either directly or indirectly observable.

Level 3 : Valuation techniques for which the lower level input that is significant to the fair value measurement is either directly or indirectly unobservable.

Chief Executive/ Principal Officer Director Director Director Chief Financial Officer

CONSOLIDATED Financial Statements for the Year Ended December 31, 2022

Directors' Report to the Members on Consolidated Financial Statements

On behalf of the Board of Directors, I am pleased to present the consolidated financial statements of Crescent Star Insurance Limited and its subsidiaries, Crescent Star Luxury (Private) Limited (CSL), Crescent Star Foods (Private) Limited (CSF) and Crescent Star Technologies (Private) Limited for year ended December 31, 2022.

The consolidated gross premium recorded this year was Rs. 177.075 million as compared to Rs. 91.612 million in the year 2021. The net premium was Rs. 118.287 million and the profit after tax was Rs. (16.609) million. The consolidated total assets were Rs. 1,202.742 million.

Auditors' Report

- The Company has made an advance of Rs. 354.279 million for issuance of shares to Dost Steels Limited (DSL). Prudent management policy and in the interest of the Company, the Company has charged interest amounting to Rs. 310.639 million on the advance amount and demanded the same from DSL. However, due to non-availability of any written agreement between DSL and CSIL for charging of mark-up, the auditors have expressed their reservation in the auditors' report.
- Keeping in view the projections of its subsidiary CSF impairment of goodwill was not provided.
- The auditors have expressed reservations on the verification of balances as reflected in the CSL unaudited financial statements due to difference in the year end. The balances were however available for verification by the auditors.

The following appropriation of profit has been recommended by the Board of Directors:

	December 31, 2022	December 31, 2021
	Rup	ees
Profit / (loss) before tax	(18,758,505)	38,262,945
Provision for taxation	2,149,064	(5,891,993)
Profit / (loss) after tax	(16,609,441)	32,370,952
Profit / (loss) attributable to non-controlling interest	(21,118,522)	(6,423,444)
Profit / (loss) attributable to ordinary shareholders	4,509,081	38,794,396
Profit / (loss) per share	(0.15)	0.30

The Directors of your Company would like to take this opportunity to thank all the stakeholders for their continued support and cooperation.

Tanveer Ahmed Director Naim Anwar Managing Director & CEO

INDEPENDENT AUDITOR'S REPORT To the members of Crescent Star Insurance Limited Report on the Audit of the Consolidated Financial Statements

Qualified Opinion

We have audited the annexed consolidated financial statements of Crescent Star Insurance Limited (the Holding Company) and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2022, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, except for the matters stated in the basis for qualified opinion paragraph below, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at December 31, 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for Qualified Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

- 1) As stated in note 9.1 to the consolidated financial statements, the Group has recorded accrued interest amounting to Rs. 310.639 million (2021: Rs. 247.374 million) at a rate of one year KIBOR plus three percent on the advance against issue of shares to Dost Steels Limited. We have not been provided any documentary evidence to substantiate the Group's claim against accrued interest and under the circumstances the recoverability of the interest income accrued could not be ascertained. Accordingly, profit for the year and total assets/solvency of the Group are overstated by Rs. 63.264 million (2021: Rs. 41.267 million) and Rs. 310.639 million (2021: Rs. 247.374 million) respectively.
- 2) As stated in note 7 to the consolidated financial statements, the Group has goodwill amounting to Rs. 28.743 million. Management has not carried out any impairment testing

as per the requirement of IAS 36 "Impairment of Assets" due to which we are unable to determine the recoverable amount and impairment loss, if any.

3) Assets of the consolidated financial statements include property and equipment amounting to Rs. 10.37 million (2021: Rs. 11.55 million), loans and other receivables amounting to Rs.3.93 million (2021: Rs. 3.93 million), and stock in trade amounting to Rs. 8.183 million (2021: Rs. 8.183 million), Liabilities of the consolidated financial statements include other creditors and accruals amounting to Rs 24.927 million (2021: Rs 25.42 million), expense of the consolidated financial statements include general and administration expenses amounting to Rs. 1.203 million (2021: Rs. 1.52 million) are based on unaudited balances in respective financial statements. Furthermore, we were unable to determine the amount of adjustment in respective financial statements that may have been required in relation to balances of trade creditors amounting to Rs. 19.77 million due to absence of alternate procedures.

Emphasis of Matter

Without further modifying our opinion, we draw attention to note 18 to the financial statements where management has disclosed the payable balance to the provident fund which has not been deposited within 15 days from the date of collection of liability.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section, we have determined the matter described below to be the key audit matters to be communicated in our report.

	in our
 Revenue Recognition Refer note 4.15 and 21 to the annexed financial statements The Company revenue primarily based on premiums and investment income from insurance policies which comprises 61 % of total income. We identified revenue recognition as a key audit matter as it is one of the key performance indicators of the Company and because of the potential risk that revenue transactions may not be recognized in the appropriate period. Our audit procedures included the fol Obtained an understanding, evaluades design and tested the controls over process of capturing, processing a recording of premium income; Assessed the appropriateness of Company's accounting policy for recording of premiums in line with requirements of applicable accourting and reporting standards; Tested the policies on sample bas where premium was recorded clos year end and subsequent to year 	ated the er the ind he ting is is to

		 and evaluated that these were recorded in the appropriate accounting period; and Tested the investment income transaction on sample basis and subsequent to year end, and evaluated that these were recorded in the appropriate period.
02	Valuation of claim liabilities Refer note 4.4.1 and 'Outstanding claims including IBNR" to the annexed financial statements The Company's claim liabilities represents 21 % of its total liabilities. Valuation of these claim liabilities involves significant management judgment regarding uncertainty in the estimation of claims payments and assessment of frequency and severity of claims. Claim liabilities are recognized on intimation of the insured event based on management judgment and estimation. The Company maintains provision for claims incurred but not reported (IBNR) based on the advice of an independent actuary. The actuarial valuation process involves significant judgment and the use of actuarial assumptions. We have identified the valuation of claim liabilities as key audit matter because estimation of claim liabilities involves a significant degree of judgment.	 Obtained an understanding, evaluated the design and tested the controls over the process of capturing, processing and recording of information related to the claims; Inspected significant arrangements with reinsurer to obtain an understanding of contracts terms and assessed that recoveries from reinsurance on account of claims reported has been accounted for based on terms and conditions; Assessed the appropriateness of the Company's accounting policy for recording of claims in line with requirements of applicable accounting and reporting standards; Tested claims transactions on sample basis with underlying documentations to evaluate that whether the claims reported during the year are recorded in accordance with the requirements of the Company's policy and insurance regulations; Assessed the sufficiency of reserving of claim liabilities, by testing calculations on the relevant data including recoveries from reinsurers based on their respective arrangements; Tested specific claims transactions on sample basis recorded close to year end and subsequent to year end with underlying documentation to assess whether claims had been recognized in the appropriate accounting period; and Considered the adequacy of Company's disclosures about the estimates used and the sensitivity to key assumptions.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. For the matters described in the Basis for Qualified Opinion section above, we are unable to obtain sufficient appropriate evidence. Accordingly, we are unable to conclude whether or not the other information is materially misstated with respect to this matter.

Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and Insurance Ordinance, 2000 and Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high

level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when

it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive
- to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis
 of accounting and, based on the audit evidence obtained, whether a material
 uncertainty exists related to events or conditions that may cast significant doubt on the
 Group's ability to continue as a going concern. If we conclude that a material uncertainty
 exists, we are required to draw attention in our auditor's report to the related disclosures
 in the consolidated financial statements or, if such disclosures are inadequate, to modify
 our opinion. Our conclusions are based on the audit evidence obtained up to the date of
 our auditor's report. However, future events or conditions may cause the Group to
 cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

• Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Imran Shaikh.

The registered office of the company is located at 2nd floor, Nadir House, I.I. Chundrigar Road, Karachi, Pakistan. The Subsidiary Company has the business objective of running the Fast Food Restaurants throughout Pakistan and other ancillary activities.

- Crescent Star Technologies (Private) Limited

Crescent Star Technologies (Private) Limited (the Subsidiary Company) was incorporated in Pakistan as a private limited company on February 23, 2016 under the Companies Ordinance, 1984 (now the Companies Act, 2017). The object of the Subsidiary Company is to carry on business of vehicle tracking, fleet management services including supply and installation/trading of devices based on various technologies such as GPS and GSM. Its registered office is located at 2nd Floor, Nadir House, I.I Chundrigar Road, Karachi.

- Crescent Star Luxury (Private) Limited

Crescent Star Luxury (Private) Limited (the Subsidiary Company) was incorporated in Pakistan as a private limited company on December 15, 2016 under the Companies Ordinance, 1984 (now the Companies Act, 2017). The objective of the Subsidiary Company is to carry on business of beauty, skincare products and fashion accessories as permissible under the law and such other allied business. Its registered office is located at 2nd Floor, Nadir House, I.I Chundrigar Road, Karachi.

2 BASIS OF CONSOLIDATION

The consolidated financial statements includes the financial statements of Holding Company and its subsidiary companies, comprising together 'the Group'. Control is achieved when the Holding

- has a power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Holding Company reassesses whether or not it controls an investee, if facts and circumstances indicate that there are changes to one or more of the three elements of controls listed above.

Consolidation of a subsidiary companies begins when the Holding Company obtains control over the subsidiary companies and ceases when the Holding Company loses control of the subsidiary companies. Specifically, income and expenses of a subsidiary companies acquired or disposed-off during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Holding Company gains control until the date when the Holding Company ceases to control the subsidiary companies. These consolidated financial statements include Crescent Star Insurance Limited and all companies in which it directly or indirectly controls, beneficially owns or holds more than 50% of the voting securities or otherwise has power to elect and appoint more than 50% of the subsidiary companies' directors.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Holding Company and to the non-controlling interests. Total comprehensive income of subsidiary companies is attributed to the owners of the Holding Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiary companies to bring their accounting policies in line with the Group's accounting policies.

The assets, liabilities, income and expenses of the subsidiary companies have been consolidated on a line by line basis and the carrying value of the investment held by the Holding Company has been eliminated against corresponding Holding in subsidiary companies' shareholders' equity in the consolidated financial statements. All intragroup assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

2.1 Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiary companies that do not result in the Group losing control over the subsidiary companies are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary companies. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Holding Company.

2.2 Loss of control

When the Group losses control of a subsidiary, a gain or loss is recognized in the consolidated profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognized in the consolidated other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed off the related assets or liabilities of the subsidiary (i.e. reclassified to consolidated profit or loss or transferred to another category of equity as specified/permitted by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IAS 39, when applicable, the cost on initial recognition of an investment in an associate or a ioint venture.

2.3 Non-controlling interests

Non-controlling interests are measured initially at their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

The Group treat transactions with non-controlling interest as that do not results in loss of control as an equity transaction with owner of the Group. The difference between the fair value of consideration paid and relevant share acquired of the carrying value of net assets of the subsidiary companies is recorded in equity. Gain and loss on disposal to non-controlling interest is recorded directly in equity.

2.4 Discontinued operation

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group and which:

- represents a separate major line of business or geographic area of operations;

- is part of a single coordinated plan to dispose of a separate major line of business or geographic area of operations; or

- is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs at the earlier of disposal or when the operation meets the criteria to be classified as held-for-sale.

2.5 Goodwill

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in the consolidated profit or loss account as a bargain purchase gain.

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in the consolidated profit or loss account. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

2.6 Associates

Associates are all entities over which the Group has significant influence but not control. Investment in associate is accounted for using equity method, whereby the investment is initially recorded at cost and adjusted thereafter for the post acquisition change in the Group's share of net assets of the associate. The consolidated profit and loss account reflects the Group share of the results of the operations of the associate.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit and loss account where applicable. The gain / loss arising on dilution of interest in an equity accounted investee is recognized in the consolidated profit and loss account.

The Group determines at each reporting date whether there is any objective evidence that the investment in associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the same in the consolidated profit and loss account.

Crescent Star Insurance Limited ('the Company') was incorporated in Pakistan as a Public Limited Company in the year 1957 under the Defunct Companies Act, 1913, now the Companies Act, 2017. The Company is listed on the Pakistan Stock Exchange and its registered office is situated at 2nd Floor, Nadir House, I.I. Chundrigar road, Karachi, Pakistan.

The Company is engaged in providing non-life general insurance services mainly in spheres of fire and property damage, marine, aviation and transport, motor, credit and suretyship, accident and health and miscellaneous insurance.

3 BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE

These consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017; and

- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accounts of Pakistan (ICAP), as are notified under the Companies Act, 2017;

- Provisions of and directives issued under the Companies Act, 2017, the Insurance Ordinance, 2000, Insurance Rules 2017 and the Insurance Accounting Regulations, 2017

In case requirements differ, the provisions or directives of the Companies Act, 2017, the Insurance Ordinance, 2000, the Insurance Rules, 2017, the Insurance Accounting Regulations, 2017, shall prevail.

These consolidated financial statements are the separate financial statements of the Company in which investment in subsidiary is accounted for on the basis of cost rather than on the basis of reported results. Consolidated financial statements of the Company are prepared and presented separately.

These consolidated financial statements have been prepared as per the prescribed format of presentation of annual financial statements for general insurance companies issued by the Securities and Exchange Commission of Pakistan (SECP) vide its S.R.O 89(1)/2017 dated February 9, 2017.

3.1 Basis of measurement

These consolidated financial statements have been prepared under the historical cost convention except for certain obligations under employee retirement benefits which are measured at present value, certain financial instruments which are stated at their fair values and provision for incurred but not reported (IBNR) is made on the basis of actuarial valuation.

In these consolidated financial statements, except for the consolidated statement of cash flows, all the transactions have been accounted for on an accrual basis.

3.2 Functional and presentation currency

These consolidated financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency. All financial information presented in Pak Rupees has been rounded off to nearest Pak Rupee, unless otherwise stated.

STANDARDS, AMENDMENTS AND INTERPRETATIONS TO ACCOUNTING AND REPORTING STANDARDS

3.3 Standards, interpretations of and amendments to the existing accounting standards that have become effective during the year

There are certain new and amended standards, interpretations and amendments that are mandatory for the Company's accounting periods beginning on or after January 01, 2021 but are considered not to be relevant or do not have any significant effect on the Company's operation and therefore not detailed in these financial statements.

3.3.1 Impact of IFRS 9 – Financial Instruments

IFRS-9 'Financial Instruments' and amendments (effective for period ending June 30, 2019) replaces the existing guidance in IAS-39 Financial Instruments: Recognition and measurement.

IFRS-4 provides two alternative options inrelation to application of IFRS-09 for entities issuing contracts within the sope of IFRS-4, notably a temporary exemption and an overlay approach. The temporary exemption enables eligible entities to defer the implementation date of IFRS-9. The overlay approach allows an entity applying IFRS-9 from the effective date to remove from the profit or loss account the effects of some of the accounting mismatches that may occur from applying IFRS-9 before IFRS-17 is applied. The Company has adopted for a temporary exemption from application of IFRS 9.

The effective date of the amendments permitting the temporary exemption is for annual periods beginning on or after 01 January 2018. The temporary exemption is available for annual reporting periods beginning before 01 January 2022 and will expire once IFRS 17 becomes effective.

3.3.2 Impact of IFRS 3 – Business Combinations

Amendment to IFRS 3 'Business Combinations' - Definition of a Business (effective for business combinations for which the acquisition date is on or after the beginning of annual period beginning on or after 01 January 2021). The Board has issued amendments aiming to resolve the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The amendments clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments include an election to use a concentration test.

3.3.3 Amendments to IAS 1 'Presentation of Financial Statements' and IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' (effective for annual periods beginning on or after 01 January 2021). The amendments are intended to make the definition of material in IAS 1 easier to understand and are not intended to alter the underlying concept of materiality in IFRS Standards. In addition, the Board has also issued guidance on how to make materiality judgments when preparing their general purpose financial statements in accordance with IFRS Standards.

3.4 Standards, interpretations and amendments not effective at year end

The following revised standards, amendments and interpretations with respect to the approved accounting standards as applicable in Pakistan have not become effective during current year:

Standards, amendments or interpretation	Effective date (annual periods beginning on or after)
Amendments to IAS 1 'Presentation of Financial Statements' - Disclosure	January 01, 2023
Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' - Denition of accounting estimates	January 01, 2023
Amendments to IAS 1 'Presentation of Financial Statements' - Classication of liabilities as current or non-current	January 01, 2023
Amendments to 'IAS 12 Income Taxes' - deferred tax related to assets and liabilities arising from a single transaction.	January 01, 2023

3.5 In addition to the above, the following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan:

Effective date (annual periods beginning on or after)

Standards, amendments or interpretation

IFRS 17 Insurance Contracts

3.6 Standards, interpretations and amendments becoming effective in future period but not relevant:

There are certain new standards, amendments to standards and interpretations that are effective for different future periods but are considered not to be relevant to Company's operations, therefore not disclosed in these financial statements.

January 01, 2023

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

4.1 **Property and equipment**

4.1.1 Owned

These are stated at cost less accumulated depreciation and impairment loss, if any. Depreciation is charged over the estimated useful life of the asset on a systematic basis to consolidated statement of comprehensive income applying the reducing balance method at the rates specified in note 4 to the consolidated financial statements.

Depreciation on additions is charged from the date the assets are available for use. While on disposal, depreciation is charged up to the date on which the assets are disposed off.

Subsequent costs are included in the asset's carrying amount or recognized as separate assets, as appropriate, only when it is possible that the future economic benefits associated with the items will flow to the Company and the cost of the item can be measured reliably. Maintenance and normal repairs are charged to the consolidated statement of comprehensive income.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the property and equipment (calculated as the difference between the net disposal proceeds and the carrying amount of asset) is included in the consolidated statement of comprehensive income in the year the asset is derecognized.

4.2 Intangibles - Computer Software

These are stated at cost less accumulated amortization and impairment loss. Amortization is charged over the estimated useful life of the asset on a systematic basis to consolidated statement of comprehensive income applying the straight line method.

Amortization is calculated from the date the assets are available for use. While on disposal, amortization is charged up to the date in which the assets are disposed off.

Software development costs are only capitalized to the extent that future economic benefits are expected to be derived by the Company.

The carrying amounts are reviewed at each reporting date to assess whether these are recorded in excess of their recoverable amounts, and where carrying values exceed estimated recoverable amount, assets are written down to their estimated recoverable amounts.

4.3 Insurance contracts

Insurance contracts are those contracts where the Company (the insurer) has accepted significant insurance risk from another party (the policy holders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policy holders.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even if the insurance risk reduces significantly during this period, unless all rights and liabilities are extinguished or expired.

Insurance contracts are classified into following main categories, depending on the nature and duration of risk and whether or not the terms and conditions are fixed.

- Fire and property;
- Marine, aviation and transport;
- Motor;
- Accident and health;
- Credit and suretyship; and
- Miscellaneous

These contracts are normally one year insurance contracts except marine and some contracts of fire and property and miscellaneous class. Normally all marine insurance contracts and some fire and property contracts are of three months period.

These contracts are provided to all types of customers based on assessment of insurance risk by the Company. Normally, personal insurance contracts for example. vehicles are provided to individual customers, whereas, insurance contracts of fire and property, marine and transport, accident and other commercial line products are provided to commercial organization.

Fire and property insurance contracts mainly compensate the Company's customers for damage suffered to their properties or for the value of property lost. Customers who undertake commercial activities on their premises could also receive compensation for the loss of earnings caused by the inability to use the insured properties in their business activities.

Marine, aviation and transport class of business provides coverage against loss and damage to goods in transit by any means of conveyance, physical loss or damage to aircraft, ships, and liabilities to third parties and passengers arising from their use.

Motor insurance covers physical loss or damage to the vehicle and liabilities to third parties as provided under the requirements of the Motor Vehicle Ordinance. 1965.

Accident and health insurance contract mainly compensate hospitalization and outpatient medical coverage to the insured. These contracts are generally one year contracts.

Credit and suretyship insurance contracts protects the insured against the risk of causing harm to third parties as a result of their legitimate activities. Damages covered include both contractual and non-contractual events. These contracts are generally one year contracts.

Other types of insurance are classified in miscellaneous category which includes mainly engineering, terrorism, personal accident, worker compensation, travel, products of financial institutions and crop insurance etc.

4.4 Claims

Claims are charged to consolidated statement of comprehensive income as incurred based on estimated liability for compensation owed under the insurance contracts. It includes related internal and external claims handling costs that are directly related to the processing and settlement of claims, a reduction for the value of salvage and other recoveries and any adjustments to claims outstanding from previous years.

These funds are administered by trustees. The pension plan is a career average salary plan and the gratuity plan is a final basic salary plan. The actuarial valuation of both the plans is carried out on a yearly basis using the Projected Unit Credit Method and contributions to the plans are made accordingly.

Actuarial gains and losses are recognized in other comprehensive income in the year in which they arise.

4.4.1 Provision for outstanding claims (including IBNR)

A liability for outstanding claims is recognized in respect of all claims incurred as at the reporting date which represents the estimates of the claims intimated or assessed before the end of the accounting year and measured at the undiscounted value of expected future payments. Provision for outstanding claims include amounts in relation to unpaid reported claims, claims incurred but not reported (IBNR) and expected claims settlement costs.

Reinsurance recoveries against outstanding claims are recognized as an asset and measured at the amount expected to be received

i) Claims reported but not settled

Provision for liability in respect of claims reported but not settled at the reporting date is made on the basis of individual case estimates. The case estimates are based on the assessed amounts of individual losses and where loss assessments have not been carried out, the estimates are established in light of currently available information, past experience of similar claims and in some cases in relation to the sums insured. Case estimated are reviewed periodically to ensure that the recognized outstanding claims amount are adequate to cover expected future payments including expected claims settlement cost and are updated as and when new information becomes available.

ii) Claims incurred but not reported

The provision for claims incurred but not reported is made at the reporting date in accordance with SECP circular no. 9 dated March 09, 2016. The Company has changed its method of estimation of IBNR. The Company now takes actuarial advice for the determination of IBNR claims. IBNR claims have been estimated using 'Chain Ladder' (CL) methodology. The CL method involves determination of development factors or link ratios for each period. These are then subsequently combined to determine cumulative development factor (CDF), which represents the extent of future development of claims to reach their ultimate level.

4.5 Premium deficiency reserve / liability adequacy test

At each financial statement date, liability adequacy tests are performed separately for each class of business to ensure the adequacy of the unearned premium liability for that class. It is performed by comparing the expected future liability, after reinsurance, from claims and other expenses, including reinsurance expense, commissions and other underwriting expenses, expected to be incurred after financial statement date in respect of policies in force at financial statement date with the carrying amount of unearned premium liability. Any deficiency is recognized by establishing a provision (premium deficiency reserve) to meet the deficit.

The movement in the premium deficiency reserve is recognized as an expense or income in the profit and loss account

The expected future liability is estimated with reference to the experience during the expired period of the contracts, adjusted for significant individual losses, which are not expected to recur during the remaining period of the policies, and expectations of future events that are believed to be reasonable. The expected ultimate net claim ratios for the unexpired periods of policies in force at financial statement date for each class of business is as follows:

	2022	2021
 Fire and property damage 	-80%	-60%
 Marine, aviation and transport 	63%	73%
- Motor	22%	27%
 Accident & health 	-6%	103%
 Credit & Suretyship 	1%	2%
- Miscellaneous	18%	18%

4.6 **Reinsurance contracts**

Contracts entered into by the Company with reinsurers under which the Company cedes insurance risks assumed during normal course of its business and according to which the Company is compensated for losses on insurance contracts issued by the Company are classified as reinsurance contracts held.

Reinsurance premium is recognized as an expense at the time the reinsurance is ceded. Commission on reinsurance cessions are recognized in accordance with the policy of recognizing premium revenue.

Reinsurance assets represent balances due from reinsurance companies and reinsurance recoveries against outstanding claims. Reinsurance recoveries are estimated in a manner consistent with the outstanding claims provision and are in accordance with the reinsurance contracts. Reinsurance liabilities represent balances due to reinsurance companies and are primarily premiums payable for reinsurance contracts and are recognized at the same time when reinsurance premiums are recognized as an expense.

Reinsurance assets or liabilities are derecognized when the contractual rights are extinguished or expired.

An impairment review of reinsurance assets is performed at each financial statement date. If there is objective evidence that the asset is impaired, the Company reduces the carrying amount of the reinsurance asset to its recoverable amount and recognizes that impairment loss in the profit and loss account.

4.7 Receivables and payables related to insurance contracts

Receivables and payables related to insurance contracts are recognized when due at cost which is the fair value of the consideration given less provision for impairment, if any. If there is objective evidence that the insurance receivable is impaired, as a result of one or more events that occurred after the initial recognition, the Company reduces the carrying

amount of the insurance receivable accordingly and recognizes that impairment loss in the profit and loss account.

Provision for impairment in premium receivables is estimated on a systematic basis after analyzing the receivables as per their ageing.

4.8 Insurance / Reinsurance receivable

Receivables under insurance contracts are recognized when due at the fair value of consideration receivable less provision for doubtful debts, if any. If there is an objective evidence that any premium due but unpaid is impaired, the Company reduces the carrying amount of that insurance receivable and recognizes the loss in profit and loss account.

4.9 Prepaid reinsurance expense

Premium for reinsurance contracts operative on a proportional and non-proportional basis is recorded as a liability on attachment of the underlying risks reinsured or on inception of the reinsurance contract respectively. For proportional reinsurance contracts, the reinsurance expense is recognized evenly in the period of indemnity. The portion of reinsurance premium not recognized as an expense is shown as a prepayment.

4.10 Reinsurance recoveries against outstanding claims

Commission expenses incurred in obtaining and recording policies is deferred and recognized as an expense in accordance with pattern of recognition of premium revenue by applying the 1/24th method.

4.11 Deferred commission expense/ Acquisition cost

Commission expenses incurred in obtaining and recording policies is deferred and recognized as an expense in accordance with pattern of recognition of premium revenue by applying the 1/24th method.

4.12 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the Company's other components. All operating segments' results are reviewed regularly by the Company to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Based on its classification of insurance contracts issued, the Company has five primary business segments for reporting purposes namely Fire and Property Damage, Marine Aviation and Transport, Motor, Crop and Miscellaneous. The nature and business activities of these segments are disclosed in respective notes to the financial statements.

Assets, liabilities and capital expenditures that are directly attributable to segments have been assigned to them while the carrying amount of certain assets used jointly by two or more segments have been allocated to segments on a reasonable basis. Those assets and liabilities, which cannot be allocated to a particular segment on a reasonable basis,

are reported as unallocated corporate assets and liabilities.

4.13 Financial instruments

Financial assets and financial liabilities within the scope of IAS - 39 are recognized at the time when the Company becomes a party to the contractual provisions of the instrument and de-recognized when the Company loses control of contractual rights that comprise of the financial assets and in the case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognizing of the financial assets and financial liabilities is included in the profit and loss account for the year.

Financial instruments carried on the statement of financial position date include cash and bank deposits, investments, insurance/reinsurance receivables, premium and claim reserves detained by cedants, accrued investment income, reinsurance recoveries against outstanding claims, sundry receivables, provision for outstanding claims, insurance/reinsurance payables, other creditors and accruals and liabilities against assets subject to finance lease.

4.14 Cash and cash equivalents

Cash and cash equivalents are carried in the consolidated statement of financial position at cost. For the purpose of consolidated cash flow statement, cash and cash equivalents consists of cash in hand, stamps in hand and deposits with banks.

4.15 Revenue recognition

4.15.1 Premium income earned

Premium income includes administrative surcharge that represents documentation and other charges recovered by the Company from policy holders in respect of policies issued.

For all the insurance contracts, premiums / cover notes issued including administrative surcharge received / receivable under a policy / cover note are recognized as written from the date of attachment of the risk to the policy / cover note and over the period of the insurance from inception to the expiry of policy. Where premiums for a policy are payable in instalments, full premium for the duration of the policy is recognized as written at the inception of the policy and related assets set up for premiums receivable at a later date. Premiums are stated gross of commission payable to intermediaries and exclusive of taxes and duties levied on premiums.

4.15.2 Provision for unearned premium

Majority of the insurance contracts entered into by the Company are for a period of twelve months. Provision for unearned premium represents the portion of premium written relating to the unexpired period of coverage and is recognized as a liability by the Company. This liability is calculated as follows:

- Marine cargo business, as a ratio of the unexpired period to the total period of the policy applied on the aross premium of the individual policies:
- Contracts of twelve months tenure, by applying the twenty-fourths' method as specified in the Insurance Rules, 2017, as majority of the remaining policies are issued for a period of one year; and
- Contracts having tenure of more than twelve months, the Company maintains provision for unearned premium net of reinsurance expense to the unexpired period of coverage at the reporting date.

4.15.3 Commission income

Commission income from reinsurers / co-insurers / others is recognized at the time of issuance of the underlying insurance policy by the Company. This income is deferred and accounted for as revenue in accordance with the pattern of recognition of reinsurance/ co-insurance / other premium to which they relate. Profit commission if any, which the Company may be entitled under the terms of reinsurance is recognized on accrual basis.

4.15.4 Commission income unearned

Commission and other forms of revenue (apart from recoveries) from reinsurers are deferred and recognized as liability and recognized in the consolidated statement of comprehensive income as revenue in accordance with the pattern of recognition of the reinsurance premiums.

4.15.5 Investment income

- Return on investments and term deposits are recognized using the effective interest rate method. Profit or loss on sale of investments is recognized at the time of sale. Dividend income is recognized when right to receive such dividend is established.
- Gain / (loss) on sale of investments is charged in consolidated statement of comprehensive income.

4.15.6 Dividend income and other income

- Dividend income and entitlement of bonus shares are recognized when the Company's right to receive such dividend and bonus shares is established. Rental and other income are recognized as and when accrued.
- Return on bank deposits is recognized on a time proportionate basis taking into account the effective vield.

4.16 Investments

4.16.1 Recognition

All investments are initially recognized at cost, being the fair value of the consideration given and including transaction cost, except for held for trading investments in which case transaction costs are charged to the profit and loss account. These are classified into the following categories:

- In subsidiary and associates
- In equity securities
- In debt securities
- In term deposits

4.16.2 Measurement

In subsidiary and associates

Entities in which the Company has significant influence but not control and which are neither its subsidiary nor joint ventures are associates and are accounted for by using the equity method of accounting.

Under equity method of accounting, the investments are initially recognised at cost; thereafter its carrying amount is increased or decreased for the Company's share of post acquisition changes in the net assets of the associate and dividend distributions. Goodwill relating to an associate is included in carrying amount of the investment and is not amortized. The Company's share of the profit and loss of the associate is accounted for in the Company's profit and loss account, whereas changes in the associate's equity which has not been recognised in the associates' profit and loss account are recognised directly in other comprehensive income of the Company.

After application of equity method, the carrying amount of investment in associate is tested for impairment by comparing its recoverable amount (higher of value in use and fair value less cost to sell) with its carrying amount and loss, if any, is recognised in profit and loss account.

In equity securities - Available for sale

Available for sale investments are those non-derivative investments that are designated as available for sale or are not classified in any other category. These are primarily those investments that are intended to be held for an undefined period of time or may be sold in response to the need for liquidity. At the time of acquisition, investments which are intended to be held for an undefined period of time but may be sold in response to the need for liquidity or changes in interest rates are classified as available-for-sale.

Subsequent to initial measurement, these are remeasured at fair value. Surplus / (deficit) on revaluation from one reporting date to other is taken to other comprehensive income in the Statement of Comprehensive Income. On derecognition

or impairment of available-for-sale investments, the cumulative gain or loss previously reported in other comprehensive income is transferred to profit and loss for the period within Statement of Comprehensive Income. Whereas, any reversal in impairment is taken in Statement of Comprehensive Income.

These are reviewed for impairment at each reporting date and any losses arising from impairment in values are charged to the profit and loss account.

In debt security - Held to maturity

At the time of acquisition, investments with fixed maturity, where management has both the intent and the ability to held to maturity, are classified as held to maturity.

Subsequently, these are measured at amortized cost less provision for impairment in value, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition using the effective yield method.

The difference between the redemption value and the purchase price of the held to maturity investments is amortized and taken to the profit and loss account over the term of investment. These are reviewed for impairment at year end and any losses arising from impairment in values are charged to the profit and loss account.

In term deposits - Held to maturity

At the time of acquisition, investments with fixed maturity, where management has both the intent and the ability to held to maturity, are classified as held to maturity.

Subsequently, these are measured at amortized cost less provision for impairment in value, if any. Amortized cost is calculated by taking into account any discount or premium on acquisition using the effective vield method.

The difference between the redemption value and the purchase price of the held to maturity investment is amortized and taken to the profit and loss account over the term of investment.

These are reviewed for impairment at year end and any losses arising from impairment in values are charged to the profit and loss account.

All investments are initially recognized at cost, being the fair value of the consideration given and include transaction costs, except for held for trading investment in which case transaction costs are charged to the profit and loss account. Investments are recognized and classified as follows:

- Held to Maturity investments;
- Available for sale investments;
- Held for Trading investments.

4.16.3 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when there is a legally enforceable right to set off the recognized amount and the Company intends either to settle on a net basis or to realize the assets and to settle the liabilities simultaneously.

4.16.4 Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is an objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For available for sale equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be an objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organization; or
- the disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial assets, such as trade receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at Held to Maturity, the amount of the impairment loss recognized is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets that are carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods. The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written-off against the allowance account. Changes in the carrying amount of the allowance account are recognized in consolidated statement of comprehensive income.

When an Available for sale financial asset is considered to be impaired, cumulative gains or losses previously recognized in other comprehensive income are reclassified to consolidated statement of comprehensive income. For financial assets measured at held to maturity, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through consolidated profit and loss account to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the In respect of available for sale equity securities, impairment losses previously recognized in consolidated profit and loss account are not reversed through consolidated profit and loss account. Any increase in fair value subsequent to an impairment loss is recognized in consolidated other comprehensive income. In respect of available for sale debt securities, impairment losses are subsequently reversed through consolidated profit and loss account if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

a) Quoted

Subsequent to initial recognition, these investments are remeasured at fair value. Gains or losses on investments on remeasurement of these investments are recognised in consolidated statement of comprehensive income.

b) Unquoted

Unquoted investments are recorded at cost less accumulated impairment losses, if any.

c) Investment in equity instruments of subsidiaries companies

Investment in subsidiaries are accounted for at cost less accumulated impairment losses. Dividend income from these investments is recognized in consolidated profit or loss and included in other income when the Company's right to receive payments has been established.

4.16.5 Date of recognition

Regular way purchases and sales of investments that require delivery within the time frame established by regulations or market convention are recognized at the trade date. Trade date is the date on which the Company commits to purchase or sell the investment.

4.17 Dividend declaration

Final dividend distribution to the Company's shareholders is recognized as a liability in the consolidated balance sheet in the period in which the dividends are approved, while interim dividend distributions are recognized in the period in which the dividends are declared by the Board of Directors. However, if these are approved after the reporting period but before the consolidated financial statements are authorized for issue, they are disclosed in the notes to the consolidated financial statements.

4.18 Dividend distribution

Profit distribution to share holders is recognized as a deduction from accumulated profit in statement of changes in equity and as a liability, to the extent it is unclaimed/unpaid, in the Company's financial statements in the year in which the dividends are approved by the Board of Directors.

4.19 Management expenses

Management expenses include expenses incurred for the purpose of business and are recorded in the financial statements as and when accrued.

4.20 Creditors, accruals and provisions

Liabilities for creditors and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for the goods and / or services received, whether or not billed to the Company.

Provisions are recognised in the consolidated statement of financial position when the Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of economic benefits will be required to settle the obligations and a reliable estimate can be made of the amount of the obligation.

4.21 Foreign currency translation

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date. Exchange difference, if any, are taken to consolidated statement of comprehensive income.

4.22 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effect of all dilutive potential ordinary shares.

4.23 Taxation

4.23.1 Current

Provision of current tax is based on the taxable income for the year determined in accordance with the Income Tax Ordinance, 2001 for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted. The charge for current tax also includes adjustments, relating to prior year which arises from assessments framed/ finalized during the year or required by any other reason.

4.23.2 Deferred

Deferred tax is recognised using balance sheet liability method, providing for temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using the tax rates enacted or substantively enacted at the reporting date.

The Company recognises a deferred tax asset to the extent of taxable timing differences or it is probable that taxable profits for the foreseeable future will be available against which the assets can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

4.24 Staff retirement benefits

4.24.1 Defined contribution plan

The Company contributes to an approved provident fund scheme which covers all permanent employees. Equal contributions are made both by the Company and the members to the fund at the rate of 10% of basic salary.

4.24.2 Employees' compensated absences

The Company accounts for accumulated compensated absences on the basis of the un-availed leave balances at the end of the vear.

4.25 Impairment

A financial asset is assessed at each financial statement date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if there is objective evidence that one or more events have had a negative effect on the estimated future cash flows of that asset.

If a decline in fair value is significant or prolonged, then there is objective evidence of impairment, regardless of how long management intends to hold the investment. If there has been a significant or prolonged decline in the market price of subsidiary/associate at the reporting date, then the impairment test is performed in accordance with IAS 36.

The carrying amount of non-financial assets is reviewed at each financial statement date to determine whether there is any indication of impairment of any asset or a group of assets. If such indication exists, the recoverable amount of such asset is estimated. The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. An impairment loss is recognized if the carrying amount of an asset exceeds its estimated recoverable amount.

All impairment losses are recognized in the profit and loss account. Provisions for impairment are reviewed at each financial statement date and are adjusted to reflect the current best estimates. Changes in the provisions are recognized as income or expense.

4.26 Related party transactions

Party is said to be related, if they are able to influence the operating and financial decisions of the Company and vice versa. The Company in the normal course of business carries out transactions with related parties. Transactions with related parties are priced at comparable uncontrolled market price and are carried out at arm's length prices.

4.27 Zakat

Zakat on investment income is accounted for in the year of deduction, under Zakat and Ushr Ordinance, 1980.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of these consolidated financial statements in conformity with accounting and reporting standards requires management to make judgments, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The judgments, estimates and assumptions are based on historical experience, current trends and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the estimates about carrying value of assets and liabilities that are not readily apparent from other sources.

Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

In particular, the matters involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are:

	Note
- Provision for outstanding claims (including IBNR)	4.4.1
- Premium deficiency reserve	4.5
- Provision for doubtful receivables	11
 Useful lives and residual values of property and equipment 	4.1
- Provision for unearned premium	4.15.2

20 CONTINGENCIES AND COMMITMENTS

20.1 Contingencies

The Company is defendant in following:

- 20.1.1 The Company filed a petition No. 1027/2022 against Federal Board of Revenue (FBR) in respect of notice of encashment of guarantee given for the duties and taxes under Afghan Transit Rules amounting to Rs. 26 million. The Custom authorities claim that there was pilferage and the goods did not cross Afghan border. The company stand is that the primary responsibility for pilferage is on the bonded carrier. The High Court has granted stay against the notice of encashment.
- **20.1.2** Phillip Morris (Pakistan) Limited has filed suit 33/2021 against the Company for encashment of performance bond given amounting to Rs. 100 million. The party on whose behalf the bond was given has obtained stay order against encashment of guarantee. Further the company is secured by counter guarantee and cheque in respect of the bond amount.
- **20.1.3** Suit 6/2022 has been filed by the legal heirs of insured Farzana Akhlaq in relation to travel policy claims amounting to Rs. 11 million. The suit was filed against Company's repudiation of the travel claim on the grounds of pre-existing condition. As per terms of policy pre-existing conditions were not covered.
- **20.1.4** Suit 1036/2019 was filed by Pakistan Reinsurance Company Limited for recovery of outstanding amount against CSIL amounting to Rs. 75 million. The amount claimed by Pakistan Reinsurance is disputed by the Company.
- **20.1.5** The Company filed Petition No. 14146/2022 against Securities and Exchange Commission of Pakistan (SECP) in respect of refusal of SECP to refund the excess statutory deposit being maintained with State Bank of Pakistan (SBP) amounting to Rs. 7.26 million. as on the date of petition. The excess statutory deposit as on Dec 2022 is Rs.19 million. The Company is required to maintain statutory deposit equivalent to 10% of the paid up capital less discount on the issuance of shares. SECP interpretation is that the requirement to maintain statutory deposit is 10% of paid up capital without taking the discount factor.
- **20.1.6** The Company is defending various law suits in the court of law. In these cases, claims against the company amounted to less than Rs.10 million. The Company, based on the opinion of its legal advisors, is confident that the ultimate outcome of all of the matters provided above will be in its favor. Accordingly, no provision in respect of any above mentioned liabilities has been made in these financial statements

34 MANAGEMENT OF INSURANCE RISK AND FINANCIAL RISK

Insurance Risk

The Company accepts the insurance risk through its insurance contracts where it assumes the risk of loss from persons or organizations that are directly subject to the underlying loss. The Company is exposed to the uncertainty surrounding the timing, frequency and severity of claims under these contracts.

The Company manages its risk via its underwriting and reinsurance strategy within an overall risk management framework. Exposures are managed by having documented underwriting limits and criteria. Reinsurance is purchased where necessary to mitigate the effect of potential loss to the Company from individual large or catastrophic events and also to provide access to specialist risks and to assist in managing capital.

A concentration of risk may also arise from a single insurance contract issued to a particular demographic type of policy holder, within a geographical location or to types of commercial business. The Company minimizes its exposure by prudent underwriting and reinsuring policies where necessary.

Frequency and severity of claims

Risk associated with general insurance contracts includes the reasonable possibility of significant loss as well as the frequent occurrence of the insured events. This has been managed by having in place underwriting strategy and proactive claim handling procedures.

The Company's class wise major risk exposure is as follows:

	Maximum Gross Risk Exposure			
	2022	2021		
	RUPEES	(000)		
Class				
Fire and property damage	128,489	184,828		
Marine, aviation and transport	3,823,817	2,388,245		
Motor	2,397,686	1,412,951		
Accident and health	-	5,000		
Credit and suretyship	228,844,565	145,908,544		
Miscellaneous	77,908,517	24,354,116		
	313,103,074	<u>174,253,683</u>		

Uncertainty in the estimation of future claims payments

Claims on general insurance contracts are payable on a claim occurrence basis. The Company is liable for all insured events that occur during the term of the insurance contract including the event reported after the expiry of the insurance contract term.

An estimated amount of the claim is recorded immediately on the intimation to the Company. The estimation of the amount is based on management judgment or preliminary assessment by the independent surveyor appointed for this purpose. The initial estimates include expected settlement cost of the claims. For the estimation of provision of claims IBNR, the Company follows the recommendation of actuary.

There are several variable factors which affect the amount and timing of recognized claim liabilities. The Company takes all reasonable measures to mitigate the factors affecting the amount and timing of claim settlements. However, uncertainty prevails with estimated claim liabilities and it is likely that final settlement of these liabilities may be significantly different from initial recognized amount. Similarly, the provision for claims incurred but not reported is based on historic reporting pattern of the claims other then exceptional losses. Hence, actual amount of incurred but not reported claims may differ from the amount estimated.

Key assumptions

The principal assumption underlying the liability estimation of IBNR and premium deficiency reserves is that the Company's future claim development will follow similar historical pattern for occurrence and reporting. The management uses qualitative judgment to assess the extent to which past occurrence and reporting pattern will not apply in future. The judgment includes external factors for example. treatment of one-off occurrence claims, changes in market factors, economic conditions, etc. The internal factors such as portfolio mix, policy conditions and claim handling procedures are further used in this regard.

At the year end, actuarial valuation is carried out for the determination of IBNR which is based on a range of standard actuarial claim projection techniques, based on empirical data and current assumptions that may include a margin for adverse deviation as required/ allowed by the circular 9 of 2016. IBNR is determined by using Chain Ladder Method for all class of business The claims outstanding and claims paid till date are deducted from the ultimate claim payments for that particular year to derive an IBNR estimate for that year. IBNR triangles are made on a yearly basis for each class of business except for health which is made on a quarterly basis. The methods used, and the estimates made, are reviewed regularly.

The Company determines adequacy of liability of premium deficiency reserves by carrying out analysis of its loss ratio of expired periods of the contracts. For this purpose average loss ratio of last three years inclusive of claim settlement cost but excluding major exceptional claims are taken into consideration to determine ultimate loss ratio to be applied on unearned premium.

The assumed net of reinsurance loss ratios for each class of business for estimation of premium deficiency reserves is as follows:

Class	Assumed net loss ratio		
	2022 Percenta	2021	
		,	
Fire and property	-80%	-60%	
Marine, aviation and transport	63%	73%	
Motor	22%	27%	
Accident and health	-6%	103%	
Credit and suretyship	1%	2%	
Miscellaneous	18%	18%	

Sensitivities

The insurance claim liabilities are sensitive to the incidence of insured events and severity / size of claims. The impact of variation in incidence of insured events on gross claim liabilities, net claim liabilities, profit before tax and equity is as follows:

Particulars	Change in assumption	Impact on gross liabilities	Impact on net liabilities	Impact on profit before tax	Impact on equity
Average claim costs			(RUPEES)		
5					
2022	+ 10%	403,374	403,374	403,374	286,395
2021	+ 10%	982,725	982,725	982,725	697,735

34.1 FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

Financial risk management objectives and policies

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk (including interest / mark up rate risk and price risk)

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk and the Company's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

The Board of Directors (the Board) has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. It is the Company's policy that no trading in derivatives for speculative purposes shall be undertaken. The Board reviews and agrees policies for managing each of these risks.

The Company's Board oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

34.2 Credit risk and concentration of credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company attempts to control credit risk by monitoring credit exposures by undertaking transactions with a large number of counterparties in various industries and by continually assessing the credit worthiness of counterparties.

Concentration of credit risk occurs when a number of counterparties have a similar type of business activities. As a result, any change in economic, political or other conditions would effect their ability to meet contractual obligations in similar manner. The Company's credit risk exposure is not significantly different from that reflected in the consolidated financial statements. The management monitors and limits the Company's exposure to credit risk through monitoring of client's exposure and conservative estimates of provisions for doubtful assets, if any. The management is of the view that it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in entities of sound financial standing, covering various industrial sectors.

The Company is exposed to credit risk from its operating activities primarily for premiums due but unpaid, amount due from other insurers/reinsurers, reinsurance recoveries against outstanding claims and other financial assets.

a) The carrying amount of financial assets represents the maximum credit exposure as specified below:

	Category of financial assets	2022	2021
		RUPEE	S
Bank deposits	Loans and receivables	6,048,092	13,905,151
Investments:			
Government securities	Held to maturity	-	-
Equity & other securities	Available for sale	109,602,600	97,496,853
Premiums due but unpaid	Loans and receivables	190,370,042	207,366,130
Accrued investment income	Loans and receivables	-	-
Amount due from other insurers / reinsurers	Loans and receivables	-	1,003,326
Reinsurance recoveries against outstanding claims	Loans and receivables	-	2,595,202
Loans and other receivables	Loans and receivables	762,072,998	692,041,856
	-	1,068,093,732	1,014,408,518

Geographically there is no concentration of credit risk.

The Company does not held collateral as security. There is no single significant customer in the receivables of the Company.

General provision is made for premium due but unpaid against doubtful receivables as disclosed in note 11 to these consolidated financial statements. The remaining past due balances were not impaired as they relate to a number of policy holders and other insurers/reinsurers for whom there is no recent history of default.

Age analysis of financial assets at the reporting date is as below:

2022	Carrying Amount	Upto 1 year	From 1 to 2 years	More than 2 years
		RU	PEES	
Financial assets				
Premiums due but unpaid	190,370,042	49,038,804	18,768,222	122,563,016

Others	-	-	-	-	6,820,405	
Total	-	2,595,202	-	2,595,202	73,286,810	

34.3 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities. The Company is financing its operations mainly through equity, working capital and musharaka to minimize risk.

The followings are the contractual maturities of financial liabilities, including estimated markup payments on an undiscounted cash flow basis:

	2022						
Particulars	Carrying amount	Contractual cash flows	Up to 1 year	Greater than 1 year			
	RUPEES						
Financial liabilities measured at Held to Maturity:							
Provision for outstanding claims	65,564,985	65,564,985	65,564,985	-			
Amounts due to other insurers	-	-	-	-

	98,296,598	98,296,598	97,878,389	418,209

34.4 Market risk

Market risk means that the fair value or future cash flows of financial instrument will fluctuate because of changes in market prices. The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The market risks associated with the Company's business activities are interest / mark up rate risk and price risk. The Company is not exposed to material currency risk.

(a) Interest rate risk exposure

Interest/mark-up rate risk is the risk that value of a financial instrument or future cash flows of a financial instrument will fluctuate due to changes in the market interest/mark-up rates. Sensitivity to interest / mark up rate risk arises from mismatches of financial assets and liabilities that mature in a given period.

At the reporting date, the interest rate profile of the Company's significant interest bearing financial instruments are as follows:

		2022							
Particulars	Interes	t / mark-up bear	ing financial inst	ruments	Non-interest /

34.5 Sensitivity analysis

Change in interest rate will not effect fair value of any financial instrument. The Company is not exposed to significant mark-up rate risk as the Company has not entered into any significant variable rate instruments.

a) Price risk

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest / mark up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market. Company is exposed to equity price risk since it has investments in quoted equity securities with fair value of Rs. 94,517,056 (2020: Rs. 91,756,452) at the reporting date.

The Company's strategy is to hold its strategic equity investments for long period of time. Thus, Company's management is not concerned with short term price fluctuations with respect to its strategic investments provided that the underlying business, economic and management characteristics of the investee remain favourable. The Company manages price risk by monitoring exposure in quoted equity securities and implementing the strict discipline in internal risk management and investment policies.

The carrying value of investments subject to equity price risk are based on quoted market prices as of the reporting date.

Market prices are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Furthermore, amount realized in the sale of a particular security may be affected by the relative quantity of the security being sold. However, the Company has no significant concentration of price risk.

Sensitivity analysis

The table below summarizes Company's equity price risk as on December 31, 2021 and 2020 shows the effects of a hypothetical 10% increase and a 10% decrease in market prices as at the year end. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Indeed, results could be better or worse in Company's equity investment portfolio because of the nature of equity markets.

The impact of hypothetical	change would be as follows:
----------------------------	-----------------------------

Particulars	Hypothetical price change	Fair value	Estimated fair value after hypothetical change in prices	Hypothetical increase / (decrease) in shareholders' equity	Hypothetical increase / (decrease) in profit / (loss) before tax
			Rupees		
December 31, 2022	10% increase 10% decrease	109,602,600	120,562,860 98,642,340	10,960,260 (10,960,260)	10,960,260 (10,960,260)
December 31, 2021	10% increase 10% decrease	97,496,853	107,246,538 87,747,168	9,749,685 (9,749,685)	9,749,685 (9,749,685)

Sensitivity analysis

The risks associated with the insurance contracts are complex and subject to a number of variables which complicate quantitative sensitivity analysis. The Company makes various assumptions and techniques based on past claims development experience. This includes indications such as average claims cost, ultimate claims numbers and expected loss ratios. The Company considers that the liability for insurance claims recognised in the consolidated statement of financial position is adequate. However, actual experience will differ from the expected outcome.

As the Company enters into short term insurance contracts, it does not assume any significant impact of changes in market conditions on unexpired risks. However, some results of sensitivity testing are set out below, showing the impact on profit/(loss) before tax net of reinsurance.

Particulars	-	on pre tax :/(loss)	Shareholder	s' equity
\pm 10% variation in profit /(loss)	2022	2021 RUPEES	2022 5 (000)	2021
Fire and property damage Marine, aviation and transport Motor Accident and health Credit and suretyship Miscellaneous	114 (4,932) 353 - (22,552) (7,997) (35,014)	323 (14,217) 3,112 669 12,759 (2,455) 191	79 (3,403) 244 - (15,561) <u>(5,518)</u> (24,159)	223 (9,810) 2,147 461 8,804 (1,694) 131

34.6 CAPITAL MANAGEMENT

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and to maintain a strong capital base to support the sustained development of its business.

The Company manages its capital structure by monitoring return on net assets and makes adjustments to it in the light of changes in economic conditions.

In accordance with Insurance Rules, 2017 issued by the Securities and Exchange Commission of Pakistan (SECP) vide SRO 89(1)/2017, minimum paid-up capital requirement to be complied with by Insurance as at December 31, 2018 and subsequent year is Rs. 500 million. As at December 31, 2022 the Company's paid-up capital is in excess of the prescribed limit.

34.7 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

34.7.1 The management considers the carrying amount of all financial assets and liabilities not measured at fair value at the end of the reporting period to approximate their fair value as at the reporting date.

IFRS 13 defines fair value as an exit price. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value is an amount for which an asset could be exchanged or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, difference may arise between the carrying values and fair values estimates.

The Company measures the fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2 : Valuation techniques for which the lower level input that is significant to the fair value measurement is either directly or indirectly observable.

Level 3 : Valuation techniques for which the lower level input that is significant to the fair value measurement is either directly or indirectly unobservable.

		2022
